THE EDITOR DESCRIBES THIS BOOK AS "A PRELIMINARY DESCRIPTION OF THE RUDIMENTS OF AYMARA GRAMMAR" RATHER THAN A DEFINITIVE GRAMMAR AND TEXT BOOK. THE MATERIAL FOR THIS BOOK WAS TAKEN FROM THE SPEECH OF EDUCATED URBAN SPEAKERS BILINGUAL IN SPANISH AND THE AUTHOR POINTS OUT THAT MUCH FURTHER FIELD WORK WITH RURAL MONOLINGUAL SPEAKERS SHOULD BE DONE IN ORDER TO DEVELOP A COMPLETE DESCRIPTION OF AYMARA "ACCORDING TO MODERN STRUCTURAL PRINCIPLES OF LINGUISTIC RESEARCH." THE TEXT CONSISTS OF A FOREWORD IN ENGLISH AND SPANISH, 40 LESSONS, AND AN APPENDED AYMARA-ENGLISH GLOSSARY. MOST LESSONS ARE MADE UP OF (1) VOCABULARY (IN AYMARA, SPANISH, AND ENGLISH), (2) GRAMMATICAL ANALYSIS, (3) SUBSTITUTION DRILLS, (4) COMPLETION DRILLS, (5) QUESTION AND ANSWER DRILLS, AND (6) ONE OR MORE DIALOGS. THE DIALOGS UTILIZE IN A NATURAL FRAMEWORK THE VOCABULARY INTRODUCED IN THE LESSON AND THEY PRESENT USEFUL CONVERSATIONAL PHRASES. ALL AYMARA MATERIAL IS WRITTEN IN THE STANDARD ORTHOGRAPHY USED IN LITERACY CAMPAIGNS. INTONATION CONTOURS HAVE NOT BEEN INDICATED BECAUSE THE LESSONS HAVE BEEN RECORDED ON TAPE. FOR FURTHER INFORMATION ON THESE MATERIALS, THE AUTHOR'S ADDRESS IS--DEPARTMENT OF LINGUISTICS, UNIVERSITY OF WASHINGTON, SEATTLE, WASHINGTON 98105. (JD)

Editor's Foreword

I. Scope of the present work. This volume is the product of preliminary research conducted on two continents by a number of persons. The first field work was undertaken in Seattle in the spring of 1966 by James Connors, language coordinator of Peace Corps programs at the University of Washington. Vincente Quispe, a young bilingual speaker from La Paz, served as informant. Subsequently, in the summer and fall of 1966, Jimmy Harris continued the field work in Bolivia with the help of Vincente Quispe and a second young bilingual speaker, Eugenio Poma. Finally, the material underwent considerable revision in the winter of 1966-67 during the Peace Corps training program for Bolivia held here in Seattle. I completed the field work with Sra. Nelly de Vega, a former teacher from Achacachi, Bolivia, and rewrote the material in its present format. Thanks go to Leonardo Bustamante for his translation of the foreword into Spanish.

It should be noted that the present format owes much to the intelligent criticism of the following trainees who participated in the Aymara program during the fall and winter of 1966-67: Wanda Echevarria, Harold Gershman, Glenn Greenberg, Daniel Le Roy, Frances Sullentrop, Dona Walls and Michael White. While the work represents the collective ideas and contributions of many people, the editor alone is responsible for the present state of the volume and welcomes the criticism and suggestions of future trainees and linguists who may plan to utilize this material.

The editor does not look upon this work as a definitive grammar and text book of Aymara but rather as a preliminary description of the rudiments of Aymara grammar. Much further work in the field is a prerequisite to a complete description of Aymara according to modern structural principles of linguistic research. Previous publications consulted, such as García 1917, Rudimentos

de gramática aymara 1963 (Canadian Baptist Mission), Ebbing 1965 (titles below in VI. Bibliography), are useful sources of raw data but suffer from atomistic and a priori descriptions and a lack of effective drill materials. It must also be remembered that the material in this volume was gleaned entirely from educated urban speakers who are bilingual in Spanish. While it may be true that large segments of the Aymara-speaking population has either a passive or active knowledge of Spanish, many puzzling questions in our description could benefit from field work conducted among rural monolingual speakers.

A word of general character about the format of the lessons: Most lessons comprise the following sections: (1) vocabulary, (2) grammatical analysis, (3) substitution drills, (4) completion drills, (5) questions and answers, and (6) one or more dialogues. (Description of intonational contours is omitted from the text because the lessons have been recorded on tape; furthermore, an analysis of intonational contours would require much more data and research.) The dialogues serve two purposes: to utilize vocabulary just introduced into the lesson in a more natural framework, and to present useful conversational phrases. New grammatical constructions and vocabulary are treated in the notes accompanying each dialogue. The student should memorize the basic sentence patterns given in each lesson and the conversational phrases presented in the dialogues.

It was necessary first to record the material systematically in paradigmatic form. Dialogues were then selected for each chapter to match the content of substitution and completion drills. In many cases, new grammatical categories and new vocabulary were introduced at the same time. In the future, given greater familiarity with the material, we might wish to drastically shorten the substitution and completion exercises and to reorder the material more imaginatively. Ultimately, it might prove preferable to write chapters containing only related conversational phrases, which would illustrate the rules of the grammar presented in each chapter. This task must, however, be left to subsequent revisions.

II. External history of the language. Within the borders of Bolivia, representatives of at least three independent language families are spoken: Indo-European (Spanish), Andean-Equatorial Macro-Phylum (Aymara and Quechua) and the Penutian Phylum with members spoken in Bolivia, Mexico and Mesoamerica (the languages of the Urus and Chipayas). For the names of other languages spoken in Bolivia, cf. C.F. and F.M. Voegelin, vol. 7, and Rivet 1951, pp. xv-xviii.

Aymara speakers number today approximately 600,000 in Bolivia and Peru. According to A. Meillet and H. Cohen, Aymara is spoken today in Peru in two provinces of the department of Puno (along the southwest bank of Lake Titicaca), in the departments of Arequipa and Moquegua, and also by monolingual groups in the department of Lima (in the villages of Tupe, Huaquis and Laraos and in the provinces of Huarochiri and Canta). (A recent Ph.D. dissertation on Peruvian Aymara by Martha Hardman at Stanford University in 1962 was unfortunately not available to us.) In Bolivia, Aymara is spoken throughout the department of La Paz (which includes the provinces of Mucacas, Omasuyu, Pacejes, Sicasica, Inquisivi, Larecaja, Chulumani, Apolobamba) and a section of the department of Oruro, encompassing in the east a part of the province of Chayanta, and in the south the region around Lake Poopó.

In comparison with earlier times, the Aymara speech areas have dwindled considerably. Historical documents reveal that in 1795 some 13,000 Aymara speakers resided in the province of Arica - a province now administered by Chile and free of any Aymara-speaking population. The chief loss to Aymara has been the assimilation of speakers to Quechua, which became the administrative language of the Inca Empire after the 16th century (for details, cf. J. Jijón y Caamaño, pp. 601 ff; Meillet and Cohen; C.F. and F.M. Voegelin, vol. 7, no. 7, October 1965, pp. 78-9).

In the views of many linguists, Aymara and Quechua are genetically related. Aymara has been grouped together with Quechua to constitute the Andean division of the Andean-Equatorial Macro-Phylum (this is the view, for example, of Joseph Greenberg of Stanford University). As far back as 1890, H. Steinthal coined the term *Qechuamaran* (or *Kechumaran*) phylum of languages ("Das Verhältniss das zwischen dem Ketschua und Aimara besteht," VII Congrès International des Américanistes, Berlin 1890, pp. 462-5). (For other references, cf. J. Jijón y Caamaño.)

While Aymara historically has lost ground to Quechua, it currently threatens to absorb two other languages indigenous to Bolivia - Uru and Chipaya (sometimes referred to as Puquina). Both languages are strongly influenced by Aymara. Chipaya numbers about 800 speakers on the southern end of the Bolivian Altiplano while Uru, spoken near Lakes Titicaca and Poopó, has been reduced to approximately 100 speakers only (cf. U.S. Army Handbook for Bolivia, p. 89 and C.F. and F.M. Voegelin, vol. 7, no. 7, Oct. 1965, p. 11).

According to the U.S. Army Handbook, the year 1952 marks a significant change in the attitude of local speakers towards Aymara which may signal an improved status for the language. Since 1952, Aymara (along with Quechua) has been studied as a tangible link with the national heritage. Recent years have seen attempts to institute primary school instruction in the native language. A law of 1955 marked the beginning of literacy campaigns in rural areas and the creation of alphabets for Quechua and Aymara. The alphabets follow Spanish orthographical norms. Aymara also serves as a medium of radio broadcasts and political tractates (cf. e.g. the Librería Altiplano which disseminates communist propaganda in the native languages). Interest in these languages is no doubt propelled by the sudden introduction of the Indian population into more active political life. Curiously, Spanish colonial policy also contributed indirectly to the preservation of the native languages by keeping the Indians from learning Spanish. According to C.F. and F.M. Voegelin (vol. 6, no. 6, June 1964), some 36% of Spanish speakers in the Highlands have some knowledge of either Quechua or Aymara.

In recent years, interest in Aymara is growing both at home and abroad - among native speakers themselves and non-native observers. We do not yet witness in Bolivia the elevation of any Indian language to the level of official administrative and educational medium, parallel to the position of Guaraní in Paraguay, but such a development is not entirely unrealistic. Aymara at one time served as an administrative language alongside Spanish. During the 17th to 19th centuries, official documents were issued in Aymara, Quechua and Spanish (cf. examples in Rivet). Early Spanish settlers, especially clerics, set about to translate religious tractates into the local languages. The first grammatical description of Aymara was apparently the 350 page work of Ludovico Bertonio, Arte y gramática muy copiosa de la lengua Aymara, Rome 1603. (It is interesting that Forbes, p. 79, a visitor to Bolivia from 1859-63, talks of meetings of Aymaras in La Paz for the purpose of keeping up the study of the language and discussing the purity of the pronunciation.)

To those sceptical observers who see the Indian tongues of South America doomed to gradual extinction with the spread of education in Spanish, we would only call to mind similar prognoses for new national languages in Europe in the course of the 19th and 20th centuries. Nevertheless, the number of national languages in Europe has rapidly proliferated within the

the last century and a half. With the rise of new nation states in the 19th and 20th centuries, new national languages took their place on the linguistic map of Europe, despite predictions of failure: Norwegian, Icelandic, Lithuanian, Czech, Ukrainian, Belorussian are some examples.

III. Research possibilities. The study of Aymara offers the student of bilingualism and language contact a rich laboratory for research. It is not unexpected to find that some 400 years of contact with Spanish and Quechua have left a strong imprint on Aymara vocabulary and grammar. It is immediately apparent to the most casual observer that a large stock of vocabulary is shared by Aymara and Quechua. (Osborne, p. 10 claims 30% common vocabulary). Detailed historical studies will reveal to what extent the similarities in lexicon and grammar are the result of relatively recent borrowings from Quechua to Aymara or proof of an older genetic relationship. The influence of Spanish on Aymara vocabulary is also significant (e.g., the days of the week, proper names, technical vocabulary, etc. are all Spanish).

IV. Problems. To some extent in this material we have had occasion to postulate the inroads of bilingualism as the motivation of some instances of divergent grammatical norms. Numerous other grammatical problems, whose descriptions necessarily remain incomplete here, probably also reflect the effects of Spanish influence on Aymara syntax. The wide use of a durative negative tense (e.g. janiw sarascti 'I am not going') in the speech of one bilingual informant (but not 'at all' attested in the speech of other bilingual informants), seems clearly the result of the Spanish positive-negative model (estoy yendo/ no estoy yendo). Other unresolved problems, such as the apparently chaotic distribution of the -wa and -ija suffixes, leads one to suspect that a once important grammatical category in the language may be undergoing functional reshaping under the impact of Spanish. Finally, the aspect distinction which characterizes verbs formed from verbal roots contrasts sharply with the weakened aspect distinction of verbs formed from non-verbal roots, such as in the aspect pair cawquinca.a '(to be) where (right now)'/ cawquincasca.a '(to be) where (in general)'. The Spanish equivalent is the adverb dónde with the verb estar 'to be'. These and many other problems are inadequately treated in previous grammars. We are also sorely hampered by a lack of dialect studies, linguistically sound

grammatical descriptions and historical studies. A comparison with older records and with the speech of monolinguals could be expected to point the way to reasonable solutions. The influence of Spanish on Aymara is, moreover, paralleled by the influence of Aymara on the Spanish speech of bilinguals.

V. Orthography. The material is presented in the orthography adopted by current literacy campaigns, in which Spanish loan words retain their original spelling and Roman letters have the same value in Aymara as in Spanish. For example, the proper name Pablo retains its orthography in Aymara though it may be pronounced Pablu or Pawru, depending on the speaker's education and knowledge of Spanish. The native pronunciation of Spanish loans will always be indicated. Punctuation follows English norms.

Prólogo del editor

I. Alcance de esta obra. Este volumen es el producto de investigaciones preliminares llevadas a cabo por varias personas en dos continentes. James Connors, coordinador de idiomas de los programas del Cuerpo de Paz en la Universidad de Washington, emprendió los primeros trabajos prácticos. Vicente Quispe, joven hablante bilingüe de La Paz, sirvió como informante. Subsecuentemente, en el verano y otoño de 1966, Jimmy Harris continuó el trabajo práctico en Bolivia con la ayuda de Vicente Quispe y de otro joven bilingüe, Eugenio Poma. Finalmente, en el invierno de 1966-67 durante el programa de entrenamiento en Seattle de un contingente del Cuerpo de Paz para Bolivia, se sometió el material a

considerable revisión. Completamos entonces el trabajo práctico con la señora Nelly de Vega, antigua maestra de Achacachi, Bolivia, como informante, y escribimos nuevamente el material en su presente tamaño.

Debemos anotar que el presente tamaño de la obra se debe en gran parte a la inteligente crítica de los siguientes entrenandos que participaron en el programa de aimara durante el otoño e invierno de 1966-67: Wanda Echevarría, Harold Gershman, Glenn Greenberg, Daniel Le Roy, Frances Sullentrop, Dona Walls, y Michael White. Si bien la obra representa ideas y contribuciones de muchas personas, solamente el editor se responsabiliza por el estado presente del volumen y acepta gustoso cualquier crítica y sugerencias por parte de futuros entrenandos, o de lingüistas que proyecten utilizar este material.

El editor no considera esta obra una gramática definitiva ni un libro de texto de aimara, sino más bien una descripción preliminar de los rudimentos de la gramática aimara. Para hacer una descripción completa del aimara de acuerdo a los principios estructurales de investigación lingüística se requiere mucho más trabajo práctico adicional. Publicaciones anteriores que hemos consultado, como García 1917, Rudimentos de gramática aymara 1963 (Canadian Baptist Mission), Ebbing 1965 (Títulos indícalos en VI, la bibliografía, pp. vi - vii.), son fuente útil de datos generales pero adolecen de descripciones atomísticas y a priori, y de falta de ejercicios eficaces de práctica. Debe recordarse que el material en este volumen se espigó por entero de hablantes urbanos y cultos, bilingües en castellano. Si bien es verdad que grandes segmentos de la población de habla aimara tienen conocimientos pasivos o activos de castellano, muchas cuestiones perplejas en nuestra descripción podrían beneficiarse mediante trabajo práctico hecho con gente rural monolingüe.

Una indicación de carácter general acerca del tamaño de las lecciones. La mayoría de las lecciones comprenden las siguientes secciones: (1) vocabulario, (2) análisis gramatical, (3) prácticas de sustitución, (4) prácticas de completamiento, (5) preguntas y respuestas, y (6) uno o más diálogos. (Hemos omitido del texto la descripción de contornos de entonación, porque las lecciones vienen también grabadas en cintas magnetofónicas y además porque un análisis tal

requeriría mucho más datos e investigación.) Los diálogos sirven dos propósitos: utilizar el vocabulario recién presentado en la lección dentro de estructuras más naturales, y presentar frases útiles de conversación. Las notas que acompañan cada diálogo tratan de construcciones gramaticales y vocabulario nuevos. El estudiante deberá aprender de memoria las frases patrón básicas que aparecen en cada lección, así como las oraciones de conversación que se presentan en los diálogos. Primero hubo que grabar el material sistemáticamente en forma paradigmática. Luego seleccionamos para cada capítulo diálogos que casen con el contenido de los ejercicios de completamiento y sustitución. En muchos casos, presentamos al mismo tiempo categorías gramaticales y vocabulario nuevos. En lo porvenir, dada mayor familiaridad con el material, quizá querramos acortar drásticamente los ejercicios de completamiento y sustitución, así como reordenar dicho material más imaginativamente. Finalmente, puede que resulte preferible escribir capítulos que contengan solamente frases relacionadas de conversación que ilustren las reglas gramaticales presentadas en los mismos. Esta tarea, sin embargo, debe quedar para revisiones subsecuentes.

II. Historia externa del idioma. Dentro de las fronteras de Bolivia, se habla representantes de por lo menos tres familias independientes de idiomas: indo-europeo (castellano), el macro filo andino ecuatorial (aimara y quechua) y el filo "penuto" con miembros que se hablan en Bolivia, Méjico y Mesoamerica (las lenguas de los urus y chipayas). Véase los nombres de otras lenguas de Bolivia en C.F. y F.M. Voegelin, vol. 7, y Rivet 1951, pp. xv-xviii.

Hay actualmente unos 600.000 hablantes de aimara en Bolivia y en el Perú. De acuerdo a A. Meillet y M. Cohen, el aimara se habla en el Perú hoy en día en dos provincias del departamento de Puno (a lo largo de la orilla occidental del lago Titicaca), en los departamentos de Arequipa y Moquegua, y también lo hablan grupos monolingües en el departamento de Lima (en las aldeas de Tupe, Huaquis y Laraos, y en las provincias de Huarochiri y Canta). (Desafortunadamente no estuvo disponible para nuestro uso una reciente disertación doctoral sobre el aimara peruano por Martha Hardman en la Universidad de Stanford en 1962.)

En Bolivia, el aimara se habla en todo el departamento de La Paz (que incluye las provincias de Muñecas, Omasuyu, Pacejes, Sicasica, Inquisivi, Larecaja, Chulumani y Apolobamba) y en una sección del departamento de Oruro, que abarca hacia el oriente una parte de la provincia de Chayanta, y hacia el sur los alrededores del lago Poopó.

En comparación con tiempos de antaño, las zonas de habla aimara han mermado considerablemente. Documentos históricos revelan que en 1795, 13.000 residentes de Arica eran de habla aimara (esta provincia pertenece a Chile ahora y no tiene población de este idioma). La pérdida principal del aimara ha sido la absorción de sus hablantes por el quechua, que llegó a ser el idioma administrativo del imperio de los incas después del siglo 16 (véase detalles, J. Jijón y Caamaño, pp. 601 a c; Meillet y Cohen; C.F. y F.M. Voegelin, vol. 7, no. 7, octubre 1965, pp. 78-9).

Al parecer de muchos lingüistas, el aimara y el quechua son genéticamente relacionados. Se le ha puesto al aimara en un mismo grupo con el quechua para constituir la división andina del macro-filo andino ecuatorial (este es el parecer, por ejemplo, de Joseph Greenberg de la Universidad de Stanford). Ya hacia 1890 H. Steinthal forjó el término filo de lenguas quechumaraes (o Kechumaran) ("Das Verhältniss das zwischen dem Ketschua und Aimara besteht," VII Congrès International des Americanistes, Berlin 1890, pp. 462-5). (Véase otras referencias, J. Jijón y Caamaño.)

Aunque históricamente el aimara ha perdido terreno con respecto al quechua, actualmente amenaza absorber otros dos lenguajes indígenas de Bolivia, el uru, y el chipaya, llamado a veces puquina, que sufren hoy en día fuerte influencia aimara. Unas 800 personas hablan chipaya en el extremo sur del altiplano boliviano mientras que el uru, hablado en los alrededores de los lagos Titicaca y Poopó, se ha reducido a apenas unos 100 hablantes (véase U.S. Army Handbook for Bolivia, p. 89 y C.F. y F.M. Voegelin, vol. 7, no. 7, oct. 1965, p. 11).

De acuerdo a la guía para el ejército de los EE.UU. (U.S. Army Handbook), el año de 1952 inicia entre los estudiosos locales una postura para con el aimara que bien puede significar una mejora en posición para este lenguaje. Desde 1952 se le ha estudiado al aimara (también al quechua) como a tangible eslabón del patrimonio nacional, y se ha tratado de instituir el uso de esta, su lengua natal, en la instrucción de

escolares primarios. Una ley de 1955 da comienzo a campañas de alfabetización en zonas rurales y a la creación de alfabetos para el quechua y aimara, alfabetos que siguen las normas ortográficas del castellano. Sirve también el aimara como medio de comunicación de radiodifusiones y tratados políticos (véase e.g. la Librería Altiplano que disemina propaganda comunista en las lenguas natales). La súbita presencia de la población india en una vida política más activa ha dado sin duda mayor impulso al interés en estos idiomas, y es curioso que la política colonial española también contribuyó a la preservación de los mismos, al impedir que los indios aprendieran castellano. De acuerdo a C.F. y F.M. Voegelin (vol. 6, no. 6, junio de 1964), un 36% de pobladores hispanos de la sierra sabe algo o de quechua, o de aimara.

En años recientes, el interés en el aimara ha venido creciendo tanto en Bolivia como en el extranjero, entre los mismos hablantes nativos y también entre observadores no nativos. Todavía no se puede notar en Bolivia la exaltación de ningún idioma indio al nivel de medio oficial administrativo y educativo paralela a la del guaraní en el Paraguay, pero tal eventualidad no debe descartarse. El aimara sirvió en un tiempo, a la par que el castellano, como idioma administrativo. Durante los siglos 17 - 19, los documentos oficiales se promulgaban en aimara, quechua y castellano (cf. ejemplos en Rivet). Los primeros colonos españoles, especialmente del clero, se pusieron a traducir tratados religiosos a los idiomas locales. La primera descripción gramatical del aimara parece ser la obra de 350 páginas escrita por Ludovico Bertonio, Arte y gramática muy copiosa de la lengua aimara, Roma 1603. (Es interesante que según Forbes, p. 79, que visitó Bolivia de 1859-63, los aimaraes se reunían en La Paz con el propósito de mantener vivo el estudio de su lengua y de discutir la pureza de su pronunciación.)

A aquellos observadores escepticos que creen que debido a la difusión de la enseñanza en castellano los idiomas indios de Sud América están predestinados a gradual desaparición, nos gustaría recordar pronósticos similares respecto a los idiomas nacionales de los nuevos países de Europa hechos en el transcurso de los siglos 19 y 20. A pesar de ellos el número de lenguas nacionales en Europa ha aumentado

rápidamente durante el último siglo y medio con el surgir de nuevos estados, y los nuevos idiomas nacionales respectivos han tomado su lugar en el mapa lingüístico de Europa, pese a las predicciones de fracaso. Tales son por ejemplo el noruego, el islandés, el lituano, el checo, el ucranio, o el beloruso.

III. Posibilidades de investigación. El estudio del aimara le ofrece al estudiante de bilingüismo y contacto idiomático un amplio laboratorio de investigación. No es nada inesperado encontrar que 400 años de contacto con el castellano y el quechua han dejado en el vocabulario y la gramática aimaraes una marcada huella. Ante el observador más fortuito se pone de inmediata evidencia que el aimara y el quechua comparten una gran parte de su vocabulario (Osborne, p. 10, afirma 30% vocabulario común). Estudios históricos detallados podrían revelar hasta qué punto las similitudes en léxico y gramática son el resultado de préstamos relativamente recientes del quechua al aimara, o prueba de un parentesco genético más antiguo. La influencia del castellano en el vocabulario aimara es también significativa (e.g., los días de la semana, nombres propios, vocabulario técnico, etc. son todos castellanos).

IV. Dificultades. En este material hemos tenido ocasión en cierta medida, de postular las incursiones del bilingüismo como la motivación de algunos casos de normas gramaticales divergentes. Otros problemas gramaticales numerosos, cuya descripción necesariamente queda incompleta aquí, también reflejan probablemente los efectos de la influencia del castellano en la sintaxis aimara. El uso extenso de un tiempo durativo en negativo (e.g. janiw sarascti 'no estoy yendo') en el habla de un informante bilingüe, pero que no existe en la de otros, parece claramente resultado del modelo positivo negativo castellano (estoy yendo/ no estoy yendo). Otros asuntos no resueltos, como la aparente distribución caótica de los sufijos -wa y -jja, hace sospechar que si fué esta una vez categoría gramatical importante de la lengua, quizá esta sufriendo hoy reformas funcionales bajo el impacto del castellano. Finalmente, la distinción de aspecto que caracteriza los verbos formados de raíces verbales contrasta marcadamente con aquella debilitada de los verbos formados de raíces no verbales, como en el aspecto par cawquincaña

'(estar) donde (ahora mismo)'/cawquincasca '(estar) donde (en general)'
 mientras el equivalente castellano donde (estar) funciona como adverbio
 más el verbo 'estar'. Estas y muchas otras cuestiones se tratan inadecua-
 damente en gramáticas anteriores; nosotros estamos también lamentable-
 mente impedidos por la falta de estudios de dialectos, descripciones
 gramaticales lingüísticamente válidas y estudios históricos. Es de
 esperarse que una comparación con documentos más antiguos y con el habla
 de monolingües pueda indicar el camino hacia soluciones razonables. La
 influencia del castellano en el aimara es, además, paralela a la del
 aimara en el habla castellana de los bilingües.

V. Ortografía. Presentamos el material con la ortografía adoptada por
 las actuales campañas contra el analfabetismo, en la cual las palabras
 castellanas guardan su ortografía original y las letras romanas tienen
 el mismo valor en aimara como en castellano. Por ejemplo, el nombre
 propio Pablo conserva su ortografía en aimara pese a que puede pronun-
 ciarse Pablu o Pawru, dependiendo esto de la cultura del locutor y sus
 conocimientos de castellano. La pronunciación aimara de vocablos
 castellanos está siempre indicada. Las normas inglesas rigen la
 puntuación.

Next to postvelar stops and fricatives, i and u in native words are replaced by e and o respectively:

e.g. warmi 'woman' / warmejja 'my woman' (and not *warmijja).

Spanish e and o, on the other hand, are frequently replaced by i and u respectively in Aymara; Spanish voiced stops are frequently replaced by voiceless fricatives in Aymara:

e.g. regalo 'gift' / rijalu

Spanish words are written in their standard orthography, with the omission of the accent mark: e.g. Jose, Maria. Spanish loans which end in a consonant are spelled in Aymara with final -a: e.g. Spanish martes 'Tuesday' becomes martesa. The Aymara pronunciation of Spanish loans is given in parentheses next to the Spanish spelling: e.g. martesa (martisa). The orthography follows that adopted by Rudimentos de gramática aymara and the Comisión de alfabetización y literatura en Aymara (La Paz) and others. In this orthography, Spanish symbols are used to represent similar Aymara sounds (p, t, ch, etc.); where Spanish lacks an appropriate symbol for an Aymara sound, a combination of familiar symbols is proposed (ph, th, etc.); in addition, new symbols are introduced (p', t', etc.).

The following diagram indicates the relative position of the prepalatal, postpalatal and postvelar series. The English "k" sounds are also included for orientation.

front of the mouth

back of the mouth

1. Aymara ll, ñ, ch,

2. Aymara c(a,u) / qu(i); c'(a,u) / q'(i)
qh, i

English "k" of keel, cat, cool

3. Aymara k, kh, k', ij

N.B. In the production of (1), the tip of the tongue touches the back of the lower front teeth. The English "k" sounds are not found in Aymara. In the production of (3), the back of the tongue approaches (in the production of ij) or makes direct contact (k, kh, k') with the back region of the soft palate.

Grammar - Suma partañataqui

- I. Mariajj suma tawakowa. 'Maria is a nice girl'
 (literally 'M.-jj nice girl - is.')
- Davidajj suma waynawa. 'David is a nice young man.'
- Joseajj suma chachawa. 'José is a nice man.'

Aymara has an optional 'subject-object' marker (the term is tentative) which may be attached to the subject of the sentence (nouns, pronouns, adjectives) or to the object of a verb phrase. Thus Maria suma tawakowa is also possible. The precise function of the optional marker is presently unclear. Possibly it is a stylistic device which does not signal any difference in referential meaning. Words ending in a vowel take the marker in the form -jja (Maria + jja), words ending in a consonant or -e (in Spanish words) take the marker in the form -ajja (David + ajja, Jose + ajja). (On the loss of the final vowel, cf section III below.) When the subject of the sentence comprises a modified noun, the marker is added to the last component of the subject:

Jisc'a tansa waynajj. 'The short boy (+ jj)'

The same marker may also be attached to adverbs and verbs; in the case of the latter, the function appears to be grammatical rather than stylistic. These other uses will be discussed in later chapters.

Aymara has a predicate marker -wa, which, when attached to an adjective or noun, conveys the meaning 'to be.' The marker -wa can also occur with

LESSON I - Grammar

other parts of speech; these diverse functions are treated in later lessons. The marker -wa can appear only once in a sentence; moreover, -wa in the function of predicate marker or when attached to verbs is restricted to positive declarative sentences. The different functions of (optional) -jja and (obligatory) -wa are shown in the following sentences:

Acaji utawa. 'This is the house.' (Literally 'This -(subject) the house -is.')

Acaw utajja. '(This) house is the (this) one'.

II. Mariaji jisc'a tansatí? 'Is Maria short?'

Enriqueji t'uqha waynatí? 'Is Enrique a thin young man?'

The suffix -ti replaces the predicate marker -wa in interrogative sentences. Interrogative markers are always stressed. The suffix -ti may be attached to different components of the sentence, depending on desired emphasis:

Normal order: Acan utjtatí? 'Do you live here?'

Emphasis: Acantí utjta? 'Do you live here?'

III. Rules of elision: the last vowel of an adjective with more than two syllables may be dropped in sentence-medial position; the vowel of the last word of a clause can never be dropped:

e.g. Pabloji c'umar yokallawa. 'Pablo is a healthy boy.'

(full form: c'umara)

In the vocabulary, items are listed in their full form. In Pabloji suma waynawa, suma cannot be contracted to sum because it has only two syllables. (Where suma functions as an adverb ('well'), it may be contracted to sum.)

IV. Rules of stress: most native Aymara words are stressed on the last syllable. The stress remains fixed regardless of elision.

e.g. c'umára / c'umár

The only exceptions to this rule are the interrogative markers (e.g. -ti) which bear the stress.

V. Aymara words are not marked for gender.

-ma 2nd person possessive suffix:

chachama 'your husband' Possession must be marked in both pronoun and noun. The pronoun may be omitted.

4 -jja 1st person possessive suffix:

chachajja 'my husband'

The possessive marker -jja, in contrast with the synonymous optional subject marker, cannot be contracted in sentence medial position: chachaji would mean 'a, the husband'. The subject marker may be added to the possessive suffix: chachajjaji(a) 'my husband.'

LESSON II

Grammar - Suma parlañataquiI. Nayan amigojjaji wali suma jakewa. 'My friend is a very nice man.'

Possession is expressed by the addition of a suffix to the noun. The possessive personal pronoun may also be added to distinguish singular and plural possession.

e.g. Amigopaji ch'iqhiwa. 'His (her) friend is intelligent.'
'Their " " " .'

Ambiguity is removed by the addition of the possessive pronoun: jupan 'his (her)'/jupanacan 'their'

There are 8 pronominal forms, distinguished by number but not by gender. There are 4 numbers which are formally marked: singular, dual, dual plural, and plural.

1. The dual form includes the speaker and one interlocutor (I and you)
2. The plural of the dual indicates the speaker and more than one interlocutor (you plural and I)
3. The plural form 'we' does not distinguish the participants referred to by the speaker.

Possessive pronouns are formed by the addition of the possessive suffix -na if the preceding word ends in a vowel or -ana if the preceding word ends in a consonant (e.g. proper and foreign names):

Pedrona 'Pedro's'/Juanana 'Juan's'

The word following a pronoun or noun with -na must have a pronominal suffix attached to it:

nayan amigojjaji 'my friend-my'

N.B. The pronominal suffix cannot be contracted when the subject-object marker -jja is not present: e.f. amigojjaji(a) 'my friend'

amigojja

Contraction of amigojja 'my friend' results in the form amigojj 'the friend' (with subject-object marker).

(Possibly -ji serves the function of the definite article in Aymara:

e.g. amigo '(a) friend'
amigojj(a) 'the friend'
amigojjaji(a) 'my friend'

This may be the case in many examples, but the use of -jja in this function is not consistent.

LESSON IV

Grammar - Suma parlañataqui

- I. The Aymara verbal system is characterized by aspect (manner in which the action is completed) and tense (time when the action is completed). Verbs which express completed action or call attention to a specific point in time are called punctual verbs: verbs which express incompleted action are called durative verbs. (The interrelationships of aspect and tense are presented in detail in Lesson VI.)

The compound suffixes -(a)ncaña / -(a)ncascaña convert a noun, adjective or adverb into a verb meaning 'to be in, at__.' This derivational process is very productive in the language.

<u>-(a)-</u>	only present when the preceding word ends in a consonant
<u>-n-</u>	location suffix
<u>-c(a)-</u>	verbalizer
<u>-sc-</u>	durative action
<u>-aña</u>	infinitive ending
<u>-ip-/-ap-</u>	pluralizer
<u>-sa</u>	added to verbs formed from question words.

<u>Punctual:</u> (=P)	<u>cawquincaña</u> 'to be where' (at a given moment) from <u>cawqui-</u> , root meaning 'where.'
<u>Durative:</u> (=D)	<u>cawquincascaña</u> 'to be where' (in general; with no reference to a specific point in time.)

<u>Singular</u>	<u>Dual</u>	<u>Dual Plural</u>
1P <u>cawquinctsa</u>	1P <u>cawquinctansa</u>	1P <u>cawquincaptansa</u>

3P <u>cawquinquisa</u>		3P <u>cawquincapquisa</u>
3D <u>cawquincasquisa</u>		3D <u>cawquincasipquisa</u>

LESSON IV - Grammar

In positive declarative sentences, the predicate suffix -wa replaces the interrogative suffix -sa:

P: utancaña 'to be at home' (from uta 'house')

D: utancascaña 'to be at home'

1P utanctwa

1D utancasctwa, etc.

e.g. utancaña/ utancascaña 'to be at, in the home' (uta)
avionancaña/ avionancascaña 'to be in a plane' (avion)
autoncaña/ autoncascaña 'to be in a car' (auto)
trenancaña/ trenancascaña 'to be in a train' (tren)
cochencaña/ cochencascaña 'to be in a carriage' (coche)
Españancaña/ Españancascaña 'to be in Spain' (España)
Estados Unidosancaña/ Estados Unidosancascaña 'to be in the USA' (Estados Unidos)

In positive interrogative sentences, add the suffix -tí (with stress):

Pedroji utanquití/ utancasquití? 'Is Pedro at home?'

The suffix -ti can be attached to other parts of the sentence for purposes of emphasis:

Pedrotí utanqui/ utancasqui? 'Is Pedro (and not Juan) at home?'

In negative declarative statements, add the suffix -quíti (with the stress on qui) to -n(cas)-:

Pedroji janiw utanquíti/ utancasquíti 'Pedro is not at home.'

Models:

(a) Cawquinquis Susanajjá? 'Where is Susana (right now)?'

Susanaji cawquinquisá?

Susanaji marcanquiwa. 'Susana is in the village.'

Susanaji janiw marcanquíti. 'Susana is not in the village.'

(b) Cawquincasquis Susanajjá? 'Where is Susana (in general)?'

Susanaji cawquincasquisá?

Susanaji marcancasquiwa. 'Susana is in the village (in general; usually).'

Susanaji janiw marcancasquíti. 'Susana is not in the village (in general).'

LESSON IV - Grammar

N.B. The opposition of cawquincaña/ cawquincascaña does not appear to be maintained consistently by all native speakers. Instead the punctual form is used exclusively. Our hypothesis is that the distinction of aspect, maintained with verb stems, is being abandoned in this pair under the pressure of a single Spanish equivalent donde. The problem requires further investigation. Consequently, questions using punctual cawquinqis may be answered with a durative verb:

e.g. Cawquinqis tata Andresan yokapajja? 'Where is señor Andrés' son?'

Tata Andresan yokapajj marcancasquiwa. 'Señor Andrés' son is in the village.'

Juman warmimajj cawquinqisa? 'Where is your wife?'

Warmejjajj qhaya utancasquiwa. 'My wife is in that house over there.'

17. Cawqu'ris tata Enriquen utapajjá? 'Which is señor Enrique's house?'

Tata Enriquen utapajj cawqu'risa?

Tata Enriquen utapajj, qhaya jawir qhurcatancquis, uca jank'o utawa.

Qhaya jawir qhurcatancquis, uca jank'o utaw, tata Enriquen utapajja.

'Señor Enrique's house is that white house, (which is) on that side of the river.'

Order of components:

[subject clause] + [relative clause] + [predicate clause]

or [relative clause] + [predicate clause] + [subject clause]

kollu patancaña 'to be over the hill'

kollu qhurcatancaña 'to be on the other side of the hill'

kollu accatancaña 'to be on this side of the hill'

kollu jac'ancaña 'to be near the hill'

kollu uñcatasincaña 'to be in front of the hill'

e.g. qhurcatancquis(a) 'which is on the other side'

n = location infix

c = verbalizer

q = which

ut = 3rd person singular

s(a) = relative suffix ('which')

18. -na location suffix; synonymous with the possessive marker (jilajian utap 'my brother's house'):

e.g. marcancasquiwa 'he is in town'

Estados Unidos marcan 'in an American town'

Grammar - Suma parla:ataqui

- I. (a) Tata, cawqhas tataman utapajjá? 'Señor, where is your father's house?'

When calling to a person, the noun is used without any subject marker. e.g. Tata! 'father!'

Nayan tatajjan utapajj, ucawa. 'My father's house is that one.'

- (b) Tata, cawqhas amigoman utapajja? 'Señor, where is your friend's house?'

Nayan amigojjan utapajj, qhaya jisc'a utáquis, ucawa.*

Nayan amigojjan utapajj, qhaya jisc'a utawa.

'My friend's house is that small one there.'

*(Literally: 'My friend's house is that one, which is that small house over there.')

Utáquis is formed from uta + Vquisa: 'The house 'which is'

Utáquis

q--s relative marker 'which'

ui 3rd person singular

V = doubling of the last vowel of the preceding word.

- (c) Mama, qhaya calamin utáquis, ucajj tioman utapatí?*

Mama, qhaya calamin utáquis, tioman utapatí?

Mama, qhaya calamin utajj, tioman utapatí?

'Señora, is that house with the roof your uncle's house?'

*(Literally: 'Señora, is your uncle's house the one which is that roof over there?')

Jísa, qhaya calamin utáquis, ucajj tiojjan utapawa.

Jísa, qhaya calamin utáquis, tiojjan utapawa.

Jísa, qhaya calamin, ucajj tiojjan utapawa.

'Yes, that house over there with the roof is my uncle's house.'

Order of clauses in interrogative sentences:

[Relative clause] + [Subject clause] + [Predicate clause]

- II. (a) Tata, cawqhans t'ant'ajj utji? 'Señor, where is there water?'
(Literally 'in where?')

cawqhans: the addition of the -n- infix indicates location.

Umajj, qhaya jawíran utji / utjiwa. (preferred word order)

Utjiw umajj qhaya jawirana.

Qhaya jawiran utjiw umajja. 'There is water on that side of the river.'

LESSON V - Grammar

jawiran: the -n- suffix indicates location.

utji/utjiwa: the particle wa may be attached to positive verbs in declarative sentences. Its distribution is further characterized in Lesson IV.

(b) Mama, c'awnajj qhaya tiendan utjití? 'Señora, are there eggs in that store over there?'

Jísa, c'awnajj qhaya tiendan utji/utjiwa. 'Yes, there are eggs in that store over there.'

Janiwa, c'awnajj qhaya tiendan janiw utjqúiti/utjítí.

'No, there are no eggs in that store over there.'

III. Differences between cawqhans and cawquins. According to Rudimentos, cawqhans is used with reference to specific inanimate objects while cawquins may be used indiscriminately with specific or general inanimate objects. In this case, cawqhans may function as a "definite adverb," corresponding to the definite article in English and Spanish: "Where is the ___?"

e.g. Tata, cawqhans t'ant'ajj utji? 'Señor, where is the bread?'

Tata, cawquins cafeajj utji? 'Señor, where is there coffee?'

With animate objects, cawquinquis and cawqhanquis are used (possibly with the same distinction as cawquins and cawqhans). (This problem requires further study.)

IV. Qhitins 'whose': note the use of the possessive marker -n-.

e.g. Mama, qhitins c'awnajj utji? 'Señora, who has eggs?'
(literally: 'Whose eggs are there?')

V. Cunans in the meaning of 'when' or 'in what' ('where'):

e.g. Tata, cunans fiestajj utji? 'Señor, when (i.e., in what day, hour, etc.) is the fiesta?'

Tata cunans wali ch'okejj utji? 'Señor, in what (where) are the many potatoes?'

LESSON V - Dialogue

NOTES

- 1 'A volunteer (fem.) goes to a store.' The suffix -ru 'to' may be omitted. Its use may be motivated by the Spanish verb + preposition: va a; mā 'a, one'; voluntaria (vuluntaria).
- 2 'Same to you, young girl. What do you want?'
- 3 'I want to buy bread and sugar.' -mpi 'and' must be attached to both components of the clause (literally 'and bread and sugar'). The subject/object marker may be omitted: naya-nayajj.
- 4 'Very good, young girl, here I have good bread and very white sugar.' utjaña 'to have' / utji 3rd person singular / utjit(u)wa 1st person sing.
- 5 'Then give me 5 breads and a pound of sugar. churitdy = imperative 'you give me.' -y is often added to imperative forms: 'then.' Note that the pluralizing suffix -naca need not be added with numerals. Libra (liwra) 'pound'.
- 6 'There you have the sugar well weighed out and the breads are very good!' Pesadawa (pisatawa) from Spanish pesar 'to weigh.'
- 7 'Thank you, señora. Here is the money.'
- 8 'I'll be seeing you; I'll come back soon.'
Mā rat cama = lit. 'until a moment' (Spanish rato 'while, moment'), an exact translation of Spanish hasta luego.
Janc'aquiw = janc'a 'fast, soon' + quiwa 'then.'
Cutinŷ 'I will return;' infinitive cutiniña.

Grammar - Suma parlañataqui

- I. Conjugation of the present durative verb: ' am ____ing,' etc.
(On the function of -wa, -jja, c.f. below, Lesson VIII.)

<u>lurascta</u>	<u>lurasctan</u>	<u>lurasipctan</u>
(<u>lurasctwa</u>)	-(<u>wa</u>)	-(<u>wa</u>)
(<u>lurasctjja</u>)	-(<u>jja</u>)	-(<u>jja</u>)

<u>lurascta</u>		<u>lurasipcta</u>

-(<u>jja</u>)		-(<u>jja</u>)
<u>lurasqui</u>		<u>lurasipqui</u>
-(<u>wa</u>)		-(<u>wa</u>)
(<u>lurasquejja</u>)		(<u>lurasipquejja</u>)

Analysis: lura- infinitive stem
-sc- continuous action (singular)
-s..c- " " (plural)
-ip- pluralizer

Endings: -ta -tan -tan
 -ta
 -ta
 -i -i

N.B. In interrogative statements with a question word ('what, where, when'...), the suffix -jja added to the verb must receive the stress; in positive interrogative sentences, the last vowel is always stressed:
e.g. Cuns lurasctajjá? = Cuns lurasctá? stressed:
('What are you doing (now, in general)?')

In interrogative statements without a question word, the suffix -tí is used:

e.g. Juman phuchamajj cafe umasquití? 'Does your daughter drink coffee?'

LESSON VI -- Grammar

II. The object of the verb is placed before the verb and loses its final vowel; foreign words in -ia (e.g. iglesia 'church') are exempt:

- e.g. Nayajj marc sarascta. 'I'm going to the village.' (from marca)
Nayajj yap lurascta. 'I'm working the field.' (from yapu)
Cuns lurasctajjá? 'What are you doing?' (from cunas)

N.B. Often the object of verbs of motion may either lose their final vowel or take the suffix ru in the meaning of 'to':

- e.g. Nayajj Chuquiag sarascta = Nayajj Chuquiagur sarascta
 'I am going to La Paz.'
Nayajj visitiriw Pedron utap sarascta = Nayajj visitiriw Pedron
utapar(u) sarascta
 'I am going to visit Pedro's house.'

(cf dialogue notes, Lesson V for discussion of Spanish influence.)

III. Simultaneous action may be expressed by the infinitive stem.

(infinitive minus -ña* plus -ri in the meaning 'one who does the action' or 'doing the action':

- e.g. awatiña 'to pasture' becomes awatiri 'one who pastures (shepherd);
 pasturing'
catuña 'to fish' becomes caturi 'one who fishes; fishing'
thokña 'to dance' becomes thokeri 'one who dances (dancer),
 dancing.'

Infinitive stems in -a- become -i- before -ri-: churaña 'to give' / churiri 'giving, give'
 Both -jja and -wa may be attached to -ri forms.

IV. Order of clauses in declarative sentences:

(i) [Subject clause] + [object of -ri verb] + [main verb clause]

- e.g. Mama Mariajj awichapan utap visitiriw sarasqui.
 'Señora Maria is going to visit her grandmother's house.'
Jupajj pokot alasir jichhajj ghaya tiend sarasqui.
 'He is going now to that store to buy bananas.'

(ii) [Subject clause] + [object of main verb] + [object of -ri verb]
 + [main verb]

- e.g. Nayajj mamajjan utap ovej awatiriw sarascta.
 'I am going to my mother's house to pasture sheep.'

*It is important to differentiate the "infinitive stem" (which always ends in a vowel) from the term "verb stem" (introduced in later lessons) which is the infinitive stem minus the final vowel.

V. Conjunction -mpi- 'and, with' is added to all the components that it joins: e.g. nayamp jupanacampejj 'I and they' (the -jj suffix is optional)

Mariamp Enriquempejj 'María and Enrique'

VI. Cawcs '(to) where': used with verbs of motion. Note assimilation of consonants (and subsequent loss of aspiration) due to elimination of final stem vowel (as the object of a verb):

cawqhas becomes *cawqhs becomes cawcs

e.g. Cawcs sarascta? 'Where are you going?'

Cuns, the object of a verb, is a contraction of cunas.

e.g. Cuns lurascta? 'What are you doing?'

(In the negative, cuns has the meaning of 'anything, nothing':

Nayajj janiw cuns lurcti 'I am not doing anything?')

VII. Alaña / alasiña. The infix -si- (precedes the infinitive ending) introduces the meaning of reflexive or reciprocal action:

e.g. parlaña 'to talk' / parlasiña 'to converse (with one another)'

jarekaña 'to wash' / jarekasiña 'to wash oneself'

apaña 'to carry' / apasiña 'to carry for oneself'

alaña 'to buy' / alasiña 'to buy (for) oneself'

VIII. The following table illustrates the interrelationships of aspect and tense in the Aymara verb system; each box represents a single verb form:

<u>TENSE</u>	<u>ASPECT</u>	positive/ negative
present	punctual	e.g. 'I go (now); I don't go(now)'
past		'I went (then); I didn't go then'
present	durative	'I am going (in general); I am not going (in general)'
imperfect	**	'I was going, used to go; I wasn't going, didn't used to go'
pluperfect	**	'I had gone; I hadn't gone'
future	**	'I will go; I won't go'

* For most speakers, apparently, a durative negative form does not exist; instead, the punctual negative form is used for both aspects. Cf. below, lesson VIII.

** Aspect is irrelevant for these forms.

All positive verb forms may be suffixed by -wa and -jja. (-wa as a predicate marker attached to non-verbs is obligatory: e.g. tawakowa is the only way of expressing 'is a girl'.) It is by no means clear from published grammars or from the limited field work what the precise functions of those suffixes are. The suffixes appear to be modal in part:

LESSON VI - Grammar

-jja may introduce an element of doubt, possibility or anticipation - but the action is yet to be completed; on the other hand -wa may introduce the element of certainty or firmness. The following future tense and punctual forms may serve as illustrations, but the characterizations must remain tentative:

sarĥ 'I will go'

sarĥwa 'I am to go' (i.e. 'I must, should go')

sarĥjja 'I will be going'

In the punctual verb, we suspect the following meanings:

sarta 'I come, came'

sartwa 'I came, have come' (possibly with emphasis on the completion of the action in the past). However, where an adverb of time past is present, -wa can be omitted.

sartjja 'I come, I came' (in the context of 'if, were I to come')

e.g. Jumajj mamaman isip t'ajjsiscta. 'You are cleaning your mother's clothes.'

Jumajj mamajjan isip t'ajjsiscta. 'You are cleaning my mother's clothes.'

LESSON VII - Grammar

On differences between free forms and forms with -wa and -jja, cf. grammar, Lesson VI.

N.B. The particles -wa and -jja may be attached to the object of the verb instead of the verb. It is not clear what change in meaning is involved. Cf. also grammar, Lesson I.

e.g. Nayajj Davidan phuchampejj thokoñ munta. 'I want to dance with David's daughter.'

Nayajj amigojjan cullacampiw thokoñ munta. 'I want to dance with my friend's daughter.'

-wa may be affixed to a verb form in -ri or to the object of such a verb:

Nayamp jumanacampejj amigosan aywanacapar mank' chuririw

jutañ munapjitan. 'You and I want to come to feed our friend's domestic animals.'

Jupanacajj tata Andresan caballoparuw mank' churir jutañ munapjie.

'They want to come to feed señor Andres' horses.'

One informant seems to differentiate the 1st and 2nd person singular forms by means of -jja:

navajj sarta

jumajj sartajja

II. The verb munaña 'to want' may govern as its object a noun phrase (e.g. cervez munta 'I want beer') or a verb phrase introduced by an infinitive (e.g. yanapañ munta 'I want to help'). If the object of the infinitive, in turn, is a verb phrase, a second infinitive may follow: Infinitive + Infinitive + Verb

e.g. Nayajj mamajjaruw is t'ajjsiñ yanapañ munta. 'I want to help my mother to clean clothes.'

Jiwasanacajj tata Pabloruw mes lurañ yanapañ munapjitan.

'We want to help señor Pablo construct a table.'

If the direct object of an infinitive of a verb of motion (e.g. saraña 'to go') is a verb phrase, a form in -ri is required:

-ri verb + Infinitive + Verb.

e.g. Nanacajj tioman yokapampiw chawll catur sarañ munapjita.

'We want to go with your uncle's boy to catch fish.'

(i.e., 'catching fish' - an action simultaneous with that of the main verb.)

Jupanacajj mama Margaritampiw Pedron utap visitir sarañ munapjie.

'They want to go with se ora Margarita to visit Pedro's house.'

LESSON VII - Grammar

III. Some verbs require the affixation of -ru to the object they govern; the Spanish equivalent is frequently a.

e.g. Wallparu(w) mank'churañ munta. (Sp. dar comida a)

'I want to give food to the chickens.'

Nayajj mamajjaruw is t'ajjsuñ yanapañ munta. (Sp. ayudar a)

'I want to help my mother to wash clothes.'

Verbs which must govern ru are marked in the vocabulary by [ru].

Verbs which can govern ru but need not are marked by [±ru]. In such optional cases, we suspect that the use of ru is influenced by the Spanish model. Cf, earlier reference to ru in grammar, Lesson VI. The indirect object with -ru- usually precedes the direct object.

LESSON VIII - Quimsakallkor leccionaGrammar - Suma parlañataqui

According to Rudimentos de gramática aymara (published by the Canadian Baptist Mission, La Paz) there is no durative negative form (cf p. 50); the punctual negative form must be used instead. Nor is there discussion of this form in Juan Enrique Ebbing's Gramática y diccionario aimara (La Paz 1965). However, durative negative forms have been consistently elicited from Sra. de Vega. We have found no examples in the material gathered from Sr. Quispe.

It is our tentative hypothesis that the construction may be an innovation in the speech of bilinguals patterned on Spanish positive and negative present progressive forms:

e.g. estoy trabajando 'I am working'
no estoy trabajando 'I am not working'

The forms recorded from Sra. de Vega are the following:

<u>saraña</u>		
<u>janiw sarascti</u>	<u>janiw sarasctanti</u>	<u>janiw sarasipctanti</u>
'I am/was not going'		<u>janiw sarasipcti</u>
<u>janiw sarasctati</u>		<u>janiw sarasipctati</u>
<u>janiw sarasquiti</u>		<u>janiw sarasipquiti</u>

The durative interrogative negative is formed by attaching the interrogative marker -ti to the negative jani together with the positive verb forms:

(nayajj) janit sarascta?
 'Am/was I not going?'
(jumajj) janit sarascta?
(jupajj) janit sarasqui, etc.

Questions and Answers - Jisct'añanacampi iyaw sañanacampi

Negative - Jan chekanaca

Durative verb forms.

N.B. Where -jjá is added to the verb in interrogative sentences introduced by a question word, it receives the stress. In interrogative sentences lacking a question word, the suffix -tí is used:

e.g. Tata, cuns lurasctajjá? 'Señor, what are you doing?'
Lulu, tatamajj yap lurasquití? 'Honey (little girl), is your father working the field?'

Endings for the punctual negative:

1 no ending	<u>-tan</u>	<u>-tan</u>
		no ending
2 <u>-ta</u>		<u>-ta</u>
3 <u>-i</u>		<u>-i</u>

In negative constructions, the particles -wa/-jja are not used.
 In punctual interrogative negative sentences, the interrogative suffix -ti is affixed to negative jani. The verb form is identical to the declarative negative form but lacks the final negative -ti.
 In the 1st person singular and plural -ta replaces -ti:

- e.g. Nayajj janit sarcta? 'Do I not go; did I not go?'
Jumajj janit sarcta? 'Do you not go; did you not go?'
Jupajj janit sarqui? 'Does he not go; did he not go?'

* The verb stem is the infinitive stem minus the final vowel.

7. Future tense: endings are added to the final vowel of the infinitive stem (-a-, -i-, -u-); in the 1st person singular and plural, the final long vowel carries the stress:

Verb stem ending in -a- : saraña

sarã

sarañãni

sarapijañãni

sarapjiã

sarãta

sarapjiãta

sarani

sarapjiani

Analysis: sara- root

-pija- pluralizer

endings:

-a (-aa = -ã)

-ãni

-ata (-aata = -ãta)

-a (-aa = -ã)

-ata (-aata = ãta)

-ni

-ni

Infinitive stem ending in -i- : awatiña

awatĩ

awatiñãni

awatiñjãni

etc.

Infinitive stem ending in -u- : catuña

catũ

catuñãni

catupjãni

etc.

The particles -wa and -jja may be affixed to future tense forms. As was stated in Lesson VI, -wa seems to introduce the meaning of necessity:

sarãwa 'I have to go' (Sp. yo he de ir)

The particle -jja seems to imply progressive action in the future:

sarãjja 'I will be going' (Sp. yo voy a ir).

- II. There is no indefinite article in Aymara. The numeral 'one' in its short form (mã) serves this function. (On the definite article cf. Grammar, Lesson II .)

NOTES

- 1 'I have to clean': infinitive + possessive pronoun + wa.
- 2 'older' : jila 'older; brother.' The suffix -ãri, added to the final consonant of the stem, indicates 'the one who is...'
 e.g. jila 'older' - jilãri 'the older one'
jach'a 'large' - jach'ãri 'the large one'
jisc'a 'small' - jisc'ãri 'the small one.'
 (Cf. grammar notes, Lesson VI.)
- 3 'How much does a nice hat cost?'
kawkhas 'how much?'
sombrerojj (sumirojj)
cuesti (custi) 'cost' (Sp. costar; cuesta)
- 4 '100,000.' Pataca = '100'; waranka '1000.'

LESSON XI

Grammar - Suma parla ataqui

I. -ni- in compound numerals (11-19 and subsequent multiples of ten, 21-29, etc.) has the meaning of 'with, and'.

e.g. tunca mayani '11' ('10 with 1'): may also be contracted to tunca mayni.

tunca payani '12': may be contracted to tunca payni.

II. -ni- in simple numerals and in question words marks the animate quality of the subject. Inanimate subjects are unmarked:

Animate subjects

e.g. Kawkhanis wawamajja? 'How many children do you have?'
Wawamajj kawkhanisa?

Mama Marian allchhipajj kawkhanis utji? 'How many grandchildren does Se'ora Maria have?'

Wawajjajj paniniwa. 'I have 2 children.' (Lit. 'My children are two.')

N.B.: 'one' and 'two' (animate) may have 2 forms: pani, mayni (with contraction of maya becoming may), panini.

Inanimate subjects

Kawkhas kawramajja? 'How many llamas do you have?'

Kawkhas tata Josean asnopajj utji? 'How many donkeys does Señor José have?'

Kawrajajj payawa. 'I have 2 llamas.'

N.B.: It appears that not all speakers distinguish between animate and inanimate subjects. The distinction between animate and inanimate subjects is apparently made with the numerals 1-10 only. All the numerals 11-19 must have -ni- as the mark of compound numerals. The distinction between animate and inanimate can be made consistently in the adverbs 'how many, where.'

III. -qui- 'only':

e.g. pusiniwa '4' / pusiniquiwa 'only 4 (animate)

pusiwa '4' / pusiquiwa 'only 4' (inanimate)

Wawajjajj mayniquiwa. 'I have only 1 child.'

LESSON XI - Grammar

IV. -cama- 'each one'

e.g. Kawkhas? 'How much?' / Kawkhacamas? 'How much each one?'
Pokotajj quimsa patacamawa. 'The bananas are 300 each.'

V. -naca- pluralizing suffix.

With plural numbers, the pluralizing suffix is optional:

e.g. Wawamajj quimsaniwa. 'You have 3 children.'
Wawanacamajj quimsaniwa.

When the suffix -naca- is attached to a prominal or nominal subject, it may also be added to the predicate form with -wa. Rudimentos de gramática aymara (p. 27) characterizes the repetition of -naca- in the predicate as an innovation. (Cf. agreement of number in Spanish) los hermanos but not *los hermano, el hermanos.)

Rudimentos further states that -naca- attached to the subject "emphasizes the whole" of whatever is referred to [collectivity? - P.W.] When -naca- appears with the predicate, it emphasizes the individuality of the component parts of the subject."

e.g. Ucanacajj lapizawa. 'Those are pencils.' (as a whole)
Ucanacajj lapizanacawa.
Ucayj wawanacajjawa. 'These are my children.' (distinct individuals)

N.B.: Subjects with -naca may take a singular verb: e.g. Amigonacasajj janiw munquiti. 'Our friends don't want to.'

VI. Ordinal numerals are formed by the addition of the suffixes -iri to the last consonant of the stem (-ori with the numerals '7th and 8th') or -nquiri to the last vowel of the stem: pusi / pus -iri '4th'
 or pusi-nquiri

VII. 'How many' many' may be expressed in two ways:

(a) Kawkhas + Noun -ji (a)

e.g. Kawkhas qhuchimajj utji? 'How many pigs do you have?'
Kawkhas qhuchimajjã?

(b) Kawkha + Noun + s (a)

e.g. Kawkha qhuchimas utji? 'How many pigs do you have?'
Kawkha qhuchimasã?

VIII. The possessive marker -na follows the conjunctive suffix -mpi- and, like the latter, is attached to each member of the construction:

e.g. Juanin warmimampin chhiwchhimajj tunca quimsaniwa.
 'You and your wife have 13 little chickens.'
 (Lit. 'Your and your wife's little chickens are 13')

LESSON XIII - Tunca quimsanir leccionaVocabulary - Arunaca

iquiña	frazada, dormir	blanket, to sleep
kapuña	hilar	to spin
kharayp'u	mañana por la tarde	tomorrow afternoon
phajjsi	mes, luna	month, moon
poncho	poncho	poncho
qharifa	degollar	to behead
samaraña	descansar	to seat
sawuña	tejer	to weave
t'arwa, t'awra	lana	wool
uñjaña	cuidar, ver	to take care, to see
uyu	canchón, corral	yard, corral
uywa uyu	corral del ganado	corral, barnyard

Grammar - Suma parlanatacui

- I. The infinitive of the punctual verb can function as a noun indicating necessity for or ability to complete the action, or the act itself:

e.g. mank'añajja 'my eating, my need to eat'

cawqhans mank'a elasinajji utji? 'Where is there food for buying (i.e., which can be bought)?'

Mank'anawa '(This) is for eating.'

Sarañawa '(It is necessary) to go.'

The addition of a pronominal suffix with -wa creates a verb 'need to...'

mank'añajjawa Lit. 'my need to eat' = 'I must eat'

In interrogative statements, the -w(a) is replaced by interrogative -s(a); -s(a) is affixed to the last component of the interrogative clause:

e.g. Nayanji [cun lurañajja]s, tata Pablo? 'Señor Pablo, what do I need to do?'

Jumanji [cawc saranama]s arumanthejja? 'Where do you (will you) need to go tomorrow morning?'

The tense of the verb form may be determined by the adverb used in the statement, or from the context:

e.g. with jutir domingoji, arumanthejji = future

with jichhajji = present (durative, punctual), etc.

LESSON XIII - Grammar

Infinitive stem + (plural infix) + infinitive ending + possessive pronominal suffix + -wa.

Conjugation:

1	<u>mank'añajjawa</u>	<u>mank'añasawa</u>	<u>mank'apjjañasawa</u>
			<u>mank'apjjañajjawa</u>
2	<u>mank'añamawa</u>		<u>mank'apjjañamawa</u>
3	<u>mank'añapawa</u>		<u>mank'apjjañapawa</u>

N.B. The subject of the verb can be expressed by nayajj or nayanjj.

In the case of nayanjj, -n- has the meaning of 'in' (i.e., 'in me lies the obligation, the necessity'). With -mpi, the subject always lacks -n-.

II. In Chapter I it was stated that adjectives of two syllables may not lose their final vowel in sentence mediál position: e.g. suma. Adverbs comprising only two syllables may lose their final vowel when they are placed before the verb:

e.g. Jumanacajj aymar sum yatekapjjañamawa = 'You (pl.) need to learn Aymara well.'

- M: Uqhamajj jin saraññi.¹⁴

NOTES

- 1 jichhüru 'today'
- 2 cunata 'why;' lit. 'what' - 'by.'
- 3 qhitimpirac 'with whom.'

<u>qhiti</u>	'who'
<u>mpi</u>	'with'
<u>rac</u>	'also'
- 4 saram 'come.' Imperative singular.
The imperative can be formed by adding the suffix -m to the infinitive stem; in the plural, the infix -pij- is added:
e.g. Escuellar saram. 'Go to the school.' (sg.)
Escuellar sarapijam. 'Go to the school.' (pl.)
kont'asiña 'to sit down' / kont'asim 'sit down'
- 5 uqhama 'so, thus, like that'
- 6 ucampis 'but'
- 7 puedcti 'I can't;' from puedina (Sp. poder; puedo)
- 8 ucaruw 'for that (reason)'; uca 'that'
- 9 uc; contraction of uca.
- 10 saraññiy 'let's go then': The 1st person dual form in the future also functions as an imperative form.
-y(a) 'then'
- 11 cunanacs alanñtajja? 'What things (lit. 'whats') are you going to buy?'
(N.B. possibly the -jia emphasizes the future progressive quality: 'going to buy' in the future. Cf. Lesson VI.)
- 12 take ucanac 'all those things.' take 'all'; ucanaca 'those things'
- 13 uqhamaraquiwa 'also'. uqhama 'so'; raqui 'also.'
- 14 jin saraññi 'let's go.' jina 'let's go'.

NOTES

- 1 Jutascaquim 'come on in.' The imperative can be formed from a durative verb; in such cases, the suffixes qui 'only' may be added.
- 2 Aca chekaruy kont'asim. 'Sit down in this place.'
kont'asiña takes the preposition ru
cheka 'sure; direction; place'
- 3 Iya 'all right.'
- 4 acancaña/acancascaña 'to be here' Cf. Grammar, Lesson IV.
- 5 jil'iri 'oldest one.' tayp'iri 'middle one.' sullca 'youngest.'
 Cf. notes for story, Lesson XI.
- 6 achjaña 'to bite.'

LESSON XIV - Tunca pusinir leccionaVocabulary - Arunaca

sartaña	levantarse	to get up
sombrero (sumiru)	sombrero	hat
sumña	ser bueno	to be nice
yatichaña [ru]	enseñar	to teach

Grammar - Suma parlañataqui

- I. Negative necessity: infinitive stem + (plural infix) + possessive infinitive ending + pronominal suffix + (lengthening of vowel) qñiti.

t'ajjsuñajjñqñiti

t'ajjsuñasñqñiti

t'ajjsupjiañasñqñiti

t'ajjsupjiañajjñqñiti

t'ajjsuñamñqñiti

t'ajjsupjiañamñqñiti

t'ajjsuñapñqñiti

t'ajjsupjiañapñqñiti

negative janiw may occur directly after the subject or directly before the verb:

e.g. Nayajj camisamp sombreromp janiw alasinajjñqñiti.

'I don't have to buy a shirt or hat.'

Nayajj janiw mamajjar yanapanajjñqñiti. 'I don't have to help my mother.'

In the negative, Rudimentos distinguishes between ability (marked by the contracted negative -ti) and possibility (marked by the expanded negative -Vqñiti):

Janiw mankañati '(This) is not for eating.'

Janiw mankañqñiti '(This) must not be eaten.'

- II. Reflexive - reciprocal particla -si-: Cf. discussion of grammar, Lesson VI.

e.g. jarña 'to wash/jarisiña 'to wash oneself.

llaquña 'to be sad (about someone)/llaquisiña 'to be sad.'

In some pairs, the meaning of the -si- is no longer very apparent:

larña/larusiña 'to laugh'

NOTES (continued)

- 9 'So that the dust doesn't rise.'

lak'a 'dust; ground.'

sartañapataqui: Cf above, No. 1. The negative 'in order that - not' is formed by the addition of the contracted negative jan:
jan sartañapataqui 'so that it not rise' (lit., 'in order for its not rising')

- 10 'Good, from tomorrow on I will do that, and I'll also teach the others so that they sweep their houses well.'

jichhürut 'from tomorrow': -ta 'from;'; ucsara 'on that side;'

mayninacaruw 'to the others (mayni 'one' plus -naca plural);

yaticharaqul = 1st person sg. future yatich + -raqui- 'also'.

The infix raqui is attached to the last vowel of the verb stem (yaticha-) and the future endings follow the -raqui-

Pichasipjjañapataqui, lit., 'for the sake of their cleaning.' Cf.

No. 1 above.

- 11 'Fine, dona Maria, next week I'll come, then I'll teach you more so that you can become a good mistress of the house (housekeeper).'

Grammar - Suma parlañataqui

Impersonal constructions : positive

In these constructions, the subject is expressed by the personal pronoun with ru ('to me, to you' etc.). Where English has 'I am hungry', the Aymara equivalent may be 'to me it makes me hungry.' The impersonal verbs may participate in the following three types of construction:

- I. (a) noun is optional; where it appears, it takes the suffix -ta indicating 'material' or 'manner.'

awtjaña 'to be hungry' usuna 'to hurt' (cf. also below III(c))

phariaña 'to be thirsty'

e.g. Nayarojj (mark'at) awtjitu 'I'm hungry'

Jumarojj (umat) pharjitam 'You're thirsty'

(N.B. A personal construction is also possible with the above two verbs:

nayajj awtjatatwa (inf. awtjataña)

navajj pharjatatwa (inf. pharjataña)

Verbal infix -ta- implies that the action is beginning or is being intensified, and is attached to the verb stem.

e.g. thayaña 'to be windy.' / thaytaña 'to become windy'

apaña 'to carry' / aptaña 'to lift up'

jalaña 'to run' / jaltaña 'to escape'

thokoña 'to dance' / thoktaña 'to jump, spring')

- (b) Noun with the suffix -ta is required.

thayaña 'to be cold'

lupjaña 'to be hot'

e.g. Nanacarojj p'eket thayjapjjetu 'Our heads are cold'

Nayarojj p'eket lupjitu 'My head is hot'

- II. No noun is required

Karjaña 'to be tired'

e.g. Jumarojj wal karjtam 'You are tired'

LESSON XV - Grammar

III. Noun can take either a -jja or -wa suffix in positive declarative statements. In negative and interrogative statements, only -jja is permitted. (For negative, cf. Lesson XVI)

(a) fixed noun required

iqui- puriña 'to be sleepy' (lit., 'sleep or dream arrives')

e.g. Nayarojj iquiw puritu 'I am tired'

(b) noun is optional

(thaya-) thayjaña 'to be cold'

(lupi-) lupjaña 'to be hot'

e.g. Nanacarojj thayaw thayjapjjetu 'We are cold'

Jiwasanacarojj lupiw lupjapjjestu 'We are hot'

(c) noun not fixed but required

(Noun) usuña 'to hurt' (cf. also above I(a))

(Noun) jurintaña 'to be wet'

e.g. Jumarojj amparajj ustam 'Your hand hurts'

Jumanacarojj jalluw jurintapjjetam 'You are wet (from the rain)'

Jumarojj jichhajj p'ekejj ustam 'You have a headache now'

NOTES

- 1 Mñ kollu patan 'on a mountain': pata 'over plus -n location marker.'
- 2 qhunu kollu jac'arctanwa 'We are near the snow-covered mountain.'
jac'ancana 'to be near'; jac'a 'near'; qhunu 'snow'
- 3 Infinitive ponchosiña 'to put on a poncho; ' -si- reflexive particle.
- 4 januw thayjiquitaniti 'I won't be cold'; infinitive thavjataña.
On the verbal infix -ta-. Cf. Grammar, Lesson XV. The -ni- indicates future tense. Cf. Grammar, Lesson XX for further characterization.
- 5 sumaraquisñ? 'is it also good?' sumñ- verbal root (with vowel length)
-raqui- 'also' -sa interrogative marker; vowel length is carried over to the last vowel.
- 6 laka 'fast, rapid(ly)'; sawurapitu: -rapi- indicates action 'in favor of, for': e.g. jist'araña 'to open' /
jist'ararapiña 'to open (for someone)'
- 7 antisasa 'rather'
- 8 ucan 'there'; -n location marker.
- 9 Cuna sutinis? 'What is its name?' Suti 'name', -ni- possessive marker.
Achacach satawa. 'It is called Achacachi.' (The derivation of sata- is unclear.)
- 10 ch'uru 'dried potatoes'

Grammar - Suma parlañataqui

I. Summary of adverbs of time.

masüru, wasüru 'yesterday' (uru 'day'; the long vowel is due to contraction of two short vowels). The root of wasüru also appears in wasitata 'again'

masayp'u, wasayp'u 'yesterday afternoon'

nayrüru, walüru (nayra 'early, first') 'the day before yesterday; the other day.'

nayrärmanthi 'yesterday morning'

nayrayp'u 'yesterday afternoon'

jichhüru 'today' (jichha 'now')

kharüru 'tomorrow'

arumanthi 'tomorrow morning'

LESSON XVII - Grammar

kharayp'u 'tomorrow afternoon'

pasir semana 'last week' (Spanish pasar 'to pass')

jutir semana 'next week' (jutaña 'to come')

jutir mara 'next year'

- II. When a punctual verb is used with an adverb of time past, the verb has the meaning of completed action in the past.

e.g. Nayrúrojj nayajj tiojjan ovejap awatta. 'The other day I pastured my uncle's sheep.'

Nayajj tiojjan ovejap awatta. 'I pasture/pastured my uncle's sheep.'

- III. -ni- suffix with verbs indicates 'movement into' and is inserted before the infinitive ending.

apaña 'carry' / apaniña 'carry to; 'bring;

puriña 'arrive' / puriniña 'arrive (up), (there)'

qhitaña 'send' / qhitanina 'send up (to there, to that point)'

alaña 'buy' / alaniña 'go and buy' (movement along with the act of buying)

camisĕsctsa

camisĕsctansa

camisĕsipctansa

camisĕsipctsa

camisĕsctasa

camisĕsipctasa

camisĕsquisa

camisĕsipquisa

According to Rudimentos, the difference between camisĕsctasa and camisaqui is stylistic: the former is more "polite" and the latter is more "perfunctory."

A similar relationship may exist between the verb waliquĕscaña 'to be fine, well' and the adverb waliqui:

waliquĕsctwa

waliquĕsctanwa

waliquĕsipctanwa

waliquĕsipctwa

waliquĕsctawa

waliquĕsipctawa

waliquĕsquywa

waliquĕsipquywa

Waliqui is said to connote 'temporary quality.'

2 Cunatarac? 'why?': Lit. 'for what?'

3 Cunarus? 'For what?'

4 Camĕcharaquĕtajja? 'What am I to do?' Infinitive camĕchaña 'To do something.'

camĕchaña 'to do something.'

-raqui- 'then'. Adds a note of familiarity: e.g. camisaquirraqui

'What's new?' (In other contexts, -raqui- means 'also')

LESSON XVII - Dialogue - Notes

4 (continued)

c'achhata 'slowly'

kollasiña 'to cure oneself'; kollaña 'to cure'; kolla 'medicine'

jan llaquisimti 'don't worry, be upset.' llaquisiña 'to be troubled'

The negative imperative is formed by adding the suffix -m to the verb stem; -ti marks the negative. Janiw is contracted to jan.

5 Jayrasi 'he is lazy.' Infinitive jayrasiña6 niya 'already, now'7 janiw nayarojj yap lurañsa, uyw awatiñs yanapquituti. 'He doesn't even help me to work the field or to pasture the animals.'

The particle -sa means 'even, or'. When attached to an infinitive, the final vowel of the latter is elided. Sa joins two components (like -mpi) and is attached to each; it differs from -mpi in that it emphasizes the separateness of the two components.

8 lurayaña 'to have work'; causative particle -ya- is inserted before the infinitive ending. Cf. Grammar, Lesson XIX.9 nin phayaña 'to cook' from nina 'fire' and phayaña 'to cook'10 jakëña 'to be a person, man': jake 'man' + vowel lengthening (to form a verb stem) + infinitive ending.11 lurayam imperative 'have (him) work'.12 horasüjjewa 'It's already time.' -Vjje(wa) 'already'. Niya is often used in this construction.

e.g. (niy) arumäjjewa 'It is already night time.'

(niy) urüjjewa 'It is already day time.'

(N.B. It is not clear whether long vowels ü and ü must become ü, ë in the presence of postvelar jj)

Grammar - Suma parlañataqui

- I. -taqui- can be attached to interrogative pronouns, nouns and infinitives to indicate purpose. With interrogative pronouns, the interrogative suffix -sa is added; with nouns, pronouns and verbs in declarative sentences, -wa is added and in interrogative sentences, -ti. Negative constructions are formed with jan...

(a) Interrogative pronouns with -taquisa:

Qhititaquis acajja? 'Who is this for?'

Acajj qhititaquisa?

LESSON XVIII - Grammar

Cunataquis uca pankarajja? 'What is that flower (are those flowers)
Uca pankarajj cunataquisa? for?'

(b) Nouns and pronouns with -taquiti / -taquiwa

Uca librojj mamataquiti? 'Is that book for the señora?'

Uca pankarajj lulujjataquiwa. 'That flower is (those flowers are)
 for my little girl.'

Uca ch'iyär vacajj nayataquiwa. 'That black cow is for me.'

(c) Infinitives with -taquiwa:

Aca ñek'ejj adob lurañataquiwa. 'This mud is for making adobes.'

Aca wayuchajj um apaniñataquiwa. 'This pitcher is for bringing water.'

Aca papelamp lapizampejj lee: yatekañataquiti? 'Is this paper and
 pencil for learning how to read?'

(d) Negative constructions: jan comes before the verbal clause:

Aca ak'ejj jan adob lurañataqui. 'This mud is not for making
 adobes.'

II. The suffix -na-which indicates possession (Lesson II) is synonymous with the -na-which marks location (cf. Lesson IV). The resulting ambiguity is usually resolved by context:

e.g. Aca pelotajj Josean yokallapanquiwa. 'This ball is José's
 daughter's'

Aca pelotajj Josean utapanquiwa. 'This ball is in José's house.'=
 'This ball belongs to José's house.'

into a verb phrase
 To convert a noun phrase ending in the suffix -n-, the verbalizer q is attached to the -n-. With interrogative pronouns, the suffix -sa is added to the verb ending; in declarative sentences, -wa is attached to the verb ending; in interrogative sentences without an interrogative pronoun, the particle -ti is added:

e.g. Qhitinguis aca utajja? 'Whose (lit. of whom) house is this?'

Aca utajj qhitinguisa?

Aca jach'a utajj Pedron yokapanquiwa. 'This large house is
 Pedro's son's.'

Qhaya habas yapojj tatamanquiwa. 'That bean field over there is
 your father's.'

Qhaya habas yapojj tatamanquiti? 'Is that bean field over there
 your father's?'

chicaw sarjjañāni 'We'll go (back) together.' Chica 'together.'

LESSON XIX - Tunca liĥtuncanir leccionaVocabulary - Arunaca

inas (also inajja, inacha)	quizás, tal vez	perhaps
iquiña	dormir	to sleep
irpaña (ru)	guiar	to guide
jachayaña	hacer llorar	to cause to cry
jichha mara	este año	this year
jutir mara	próximo año	next year
jutir phajjsi	próximo mes	next month
jutir semana	próxima semana	next week
samaraña	descansar	to rest

Grammar - Suma parlañataqui

- I. Verbal infix - ya- indicates causative meaning; it is inserted before the infinitive ending:

e.g. jachaña 'cry' / jachayaña 'cause to cry'
jiwaña 'die' / jiwayana 'kill'
sarana 'go' / sarayaña 'conduct (a meeting)'
apana 'bring' / apayaña 'order someone else (to do...)'

- II. Dubitative future: 'possibly, maybe I'll...' The notion of doubt may be expressed by the infix -chi- in verb forms:

	<u>luraña</u>	
<u>lurchi</u>	<u>lurchiñani</u>	<u>lurapijchiñani</u>
		<u>lurapijchi</u>
<u>lurchi'ta</u>		<u>lurapijchi'ta</u>
<u>lurchini</u>		<u>lurapijchini</u>

Analysis: lur- + (plural -pji-) + -chi- + personal ending.

future endings: <u>-i</u>	<u>-ñani</u>	<u>-ñani</u>
		<u>-i</u>
<u>-ita</u>		<u>-ita</u>
<u>-ni</u>		<u>-ni</u>

Dubitative forms may take the particle -ija but not -wa.

e.g. Nayaji inas lurchi. 'I might do it.'
Nayaji inas lurchejja. 'I might do it.'

NOTES

- 1 khathu can mean both 'market' and 'fair.'
Janiw jakenacajj waljan sarapquiti 'Not many people were there.'
waljani : -ni suffix marks animate objects. Cf. Lesson XI.
- 2 utjcchitejja 'if there should be no' .Infinitive utjaña
-tejja often has the meaning of 'if' (possibly composed of negative
-ti + -jja). Cf. Lesson XXI.
-chi- indicates doubtfulness.
Cuna vacampirac lurãsti? 'With what cows will I work?'
- 3 inãsquiwa 'are useless'; ina 'in vain, useless'; inãña 'to be
unemployed, vacant' (same root as inas?)
munasmajja 'if you want'; the meaning of 'if' is again conveyed by -jja
Arumanthejj vacanacajjamp lurasmawa. 'Tomorrow you can work with my
cows.'

LESSON XIX - Dialogue - Notes

- 4 koli interjection expressing flattery, sometimes translated as 'please'.
mayt'asitay 'lend (them) to me.' Infinitive mayt'aña / mayt'asiña
 'to lend, give credit' (Cf. root in mayiña 'ask for').
juvra 'food staples' (not meat)
- 5 k'ala 'all; completely'
wansuna 'to dry (up, out)'
- 6 ch'ama 'difficult'
- 7 llaquisiña 'to suffer, grieve'
cusisiña 'to be happy, glad, rejoice'
- 8 parlana 'to talk' (Cf Spanish parlar 'to chatter')
 A derived verb parlasiña 'to converse' also exists.

LESSON XIX - Dialogue

NOTES

1 ay ampi 'oh'

2 'You're not going anywhere now?'

3 'My head hurts a little.'

After ucat, the negative frequently occurs without -wa.

4 samaraña 'to rest'

5 kariña 'to become tired' Cf. karjaña, Lesson XV.

6 jayp'üjjew 'It's already late.' Cf. notes to Dialogue, Lesson XVII.

7 jutütaw '(you) come (again).' Future used as an imperative.

NOTES

- 1 jan uñt'at 'unknown'. Uñt'ata is the passive participle of the infinitive uñt'aña 'to know (people), be acquainted with' (Sp. conocer) -ta is added to the verb stem and replaces the infinitive ending -ña.
waynjjat 'about a boy'; -ijjat 'about'
- 2 cullaquita: affectionate diminutive of cullaca.
- 3 cawquits? 'from where?' cawqui- + t + interrogative marker.
- 4 ucat 'from there (lit. 'from that').'
catokaña [+ru] 'to receive'
yatiña 'to know (how)' (Sp. saber).
- 5 ghitirac: -raqui is an interrogative particle attached to an interrogative pronoun. Rudimentos suggests -raqui in this context is more familiar than -sa. The interrogative particle -sti is often attached to the last component of the predicate to parallel the use of -raqui with the subject.
- 6 Janãraw uñt'cti 'I still don't know.'
siwa 'It is said, they say, he says.' Siwa is often used in recounting stories. The infinitive is saña 'to say', the only monosyllabic root in the language and irregular in its conjugation:

- 7 estanciancan 'He is to be in the community';
contraction of estanciancani; infinitive estanciancana
- 8 Cunarac lurpachani? 'What will he be doing, most likely?'
lurpachani: future lurani + infix -pacha- 'probably'; -pacha-
inserted after the verb stem and before the personal ending connotes
strong probability; in the plural -pacha- follows the plural infix:
e.g. uqhamãpachawa 'it should be so'
anatacapjipachawa 'They should be playing'; cf. also note 11
below.
- 9 take cunan 'in all those things'
yanapan = contraction of yanapani 'he will help'
uywana 'to raise (animals)'; cf. uywa 'domestic animal'
- 10 jiquisiña + -mpi 'to meet (with)' parallels the Spanish model
encontrarse con.
- 11 jichipachawa 'right now.' Pacha can serve as a noun meaning 'place,
time.' Cf. compounds pachamama 'earth, earth goddess, female
fertility spirit.' Cf. also note 8 above.
- 12 nayas: -sa here is an exclamatory suffix.
- 13 Thokorejj utjaniti? 'Will there be dancing?'
On the use of the -ri suffix added to verbal roots, cf. Grammar,
Lesson VI. Other examples: kollaña 'to cure'/kolliri 'doctor';
yapuchana 'to work the fields'/yapuchiri '(field) worker; awatiña
'to pasture'/awatiri 'shepherd'; phayana 'to cook'/phayiri 'cook';
catuña 'to fish'/caturi 'fisherman.' ajjsarana 'to fear'/ajjsariri
'shy person'
- 14 avist'ana 'to inform, notify. Cf. Sp. avisar.

I. Dubitative future negative: 'I may not...; probably won't...'

munanamuncchitimuncchiñnitimunapcchiñnitimunapcchitimuncchitatamunapcchitatimuncchinitimunapcchiniti

Analysis: verb stem + (plural infix) + discontinuous negative infix + -chi-
+ personal endings + discontinuous negative infix.

mun- + -c- + -chi- + i + ti = muncchiti

Endings:	1	<u>-i-</u>	<u>-ñani</u>	<u>-ñani</u>
	2	<u>-ita-</u>		<u>-ita-</u>
	3	<u>-ni-</u>		<u>-ni-</u>

N.B. The negative takes the form jan. With dubitative verb forms, -wa is not permitted in the sentence (the form janiw is thus impossible); jani can then be contracted to jan. The suffix -jja may be attached to the verb.

e.g. Jiwasajj arumanthejj inas jan café umcchiñniti.

'Tomorrow morning we probably won't drink coffee.'

Nayajj kharurojj inas jan isinac t'ajiscchiti.

'This morning I may not wash clothes.'

NOTES

- 1 'Have a seat here, do 'a.'
acawja '(in) this place;' acawjaru 'in this place.'
acawa 'here.'
kont'asiña [ru] : cf. Spanish por acá sentate.
e.g. aca sillar kont'asim 'have a seat in this chair'
- 2 p'itaña 'to weave'
- 3 Estados Unidos marcat kellkanitu. 'He wrote to me from a town in the United States.'
- 4 jach'a p'ekeniti? 'Does he have a large head?'
p'eke + -ni- possessive infix + -ña: p'ekeniña, lit. 'to have a head'
e.g. wali p'ekeniwa. 'He is very intelligent.'
- 5 ancha 'much, very'
- 6 Inas mama Susanajj sum p'itchi. 'Possibly doña Susana weaves well.'
Doubt is expressed by the addition of -chi- to the punctual verb stem.
Note also the addition of -chi- to the future stem just described in Lesson XIX.
- 7 jutaraq'ũ 'I will come again.' Future verb stem + -raqui- + personal ending.
- 8 jutaqu'itaw 'come again.' Future verb stem + -qui- + long vowel (cf. future jutãta) + personal ending.

Grammar - Suma parlañataqui

I. Imperfect tense: 'used to _____, was _____ing.'

The imperfect tense may be formed in two ways for all but the third person singular and plural:

- (1) Infinitive stem + (plural infix) + -Vy^h- + personal endings.

V = repetition of the final vowel of the infinitive stem (to yield a long vowel). The third person is not formed this way.

- (2) Infinitive stem + (plural infix) + -Vn- + personal endings for all persons except 1st singular and plural; in the later persons, -atana is attached to the infinitive stem:

munaña

1	<u>mun^hy^hta</u>	<u>mun^hy^htan</u>	<u>munapjj^hy^htan</u>
	<u>mun^hatana</u>	<u>mun^hantan</u>	<u>munapjj^hantan</u>
			<u>munapjj^hy^hta</u>
			<u>munapjj^hatana</u>
2	<u>mun^hy^hta</u>		<u>munapjj^hy^hta</u>
	<u>mun^hanta</u>		<u>munapjj^hanta</u>
3	<u>mun^hna</u>		<u>munapjj^hna</u>

The first forms given will be drilled in this lesson.

LESSON XXIII - Grammar

Endings 1	<u>-ta/-tana</u>	<u>-tan</u>	<u>-tan</u>
			<u>-ta/-tana</u>
2	<u>-ta</u>		<u>-ta</u>
3	<u>-a</u>		<u>-a</u>

N.B.: munäyätta can be contracted to munäta.

Imperfect verb forms can also be combined with the suffixes -ija (very infrequently) and -wa; the difference between forms with and without -wa is not entirely clear. One speaker consistently differentiates the 1st and 2nd persons by means of -ija in the 2nd person. When -wa is added to a form ending in a vowel, that vowel is elided. Ebbing gives the following pairs:

munäyätta/munätana 'I used to want, was wanting.'

munäyätwa/munätanwa 'I wanted'

The difference between munäyätwa/munätanwa and the punctual munta/muntwa is unclear. Perhaps the distinction is that of Spanish preterit (yo quise) and present perfect (yo he querido).

II. -taqui with verbs (infinitives) and nouns-pronouns: cf. Grammar, Lesson XVIII.

N.B.: The suffix -taqui may appear more than once in a sentence:

e.g. Nayajj jutwa Susanatac mä ut utachañataquiwa. 'I came (in order) to build a house for Susana.'

This construction is very close in meaning to the verb form in -ri:

e.g. Nayajj jutwa Susanatac mä ut utachiriw. 'I came to build a house for Susana.'

III. -t(a)-cama(wa): 'from...up until.'

e.g. inti jalsut inti jalantcamaw 'from sunrise to sunset'

lunesat viernescamaw 'from Monday to Friday'

N.B.: -cama requires the loss of the preceding vowel if the root has more than two syllables:

e.g. jalanta becomes jalantcamaw.

NOTES

- 1 niyat icjita? 'Are you already sleeping?'
 -ji- 'already' appears between the last consonant of the root and the ending
 e.g. sarañasawa 'We must go'
niya sarjjañasawa 'We must go already.'
- 2 jan'raw iccti 'I am still not sleeping.'
- 3 ijicijatcsmati 'I didn't meet you.'
ijicijataña 'to meet'
cawquirac sartasti? 'So where did you go?' Note the joint use of the interrogatives suffixes -rac and -sti with subject and predicate components.
- 4 nayaji utap jac'ar purt ucghaji... 'When I came near her house....'
ajjsarana 'to be afraid.'
- 5 camācharaquisti? 'So what happened?'
- 6 ovej uyuta 'from the sheepfold'
jalsuna 'to jump'
ucat nayar achjañ munitu 'Then he wanted to bite me.'
achjaña [ru] 'to bite'
munitu lit., 'He wanted me.' The pronominal object of the verb must be attached to the main verb of the clause.
uyu pata 'on top of the corral'
- 7 pantalonat achthapitu 'He grabbed me by the pants.'
achthaña 'to grab, seize;' achthapiña
-pi- 'then'
achjantanaataqui 'in order to bite me' The infix -nta-, coming after the infinitive stem, indicates the action took place 'from outside to within.' e.g. jalluña 'to rain' / jalluntaña 'to rain in'

LESSON XXIII - Dialogue - Notes

- 9 uñtam 'look' infinitive uñtaña 'to look, watch (after)'
aqhama 'so'
luritu 'he did to me'
- 10 laspach achjantatarakisä 'It's bitten by a mouth.'
laca 'mouth;'
laspacha 'the whole mouth' -pacha combined with a non-verb conveys the meaning of 'totality.'
achjantata - passive participle
- 11 sarnakaña 'to walk'
- 12 alala 'cold (of water)'
jarekasiña 'to wash oneself'
jupaw kollätam 'he will treat you.'
- 13 Walpin usutu 'I am very hurt' -pini- 'certainly'
- 14 Jan llaquisimt 'Don't worry about it.'
llaquisiña 'to grieve for' -ta 'because of it'
- 15 maymãrajj 'last year'
- 16 jutaragu! 'I (must) come'
- 17 Aca mã juc'a mank'say wawanacamatac apasiwayam. 'Take this little food for your children (if you like)'
-waya- attached to infinitive stems before personal endings implies action completed while on the way to somewhere else. Mank'a 'food';
-sa marks a count noun...; -ya 'then'; juc'a 'little'

LESSON XXIV - Pá tunca pusinir leccionaVocabulary - Arunaca

c'achha	despacio	slowly
jalanina	venir corriendo	to come running
jalaña	correr	to run
jiwayaña	matar	to kill
khept'aña	atrasarse	to be late
laka	rápido, rápidamente	quick(ly)
lak'o	gusano	worm
nayrt'aña	adelantarse	to get ahead, to be early
pasto	pasto	grass
walúru	anteayer	day before yesterday

Grammatical Analysis - Suma parlañataquiI. Necessitative Past 'I had to...'

Infinitive stem + (plural infix) + infinitive ending + possessive pronoun

e.g. lurañajjñnwa 'I had to work' † -an- + -wa.

lurapijañajjñnwa 'We had to work', etc.

In interrogative sentences, -wa is replaced by -ti:

e.g. lurañajjñnti? 'Did I have to work?'

lurapijañajjñnti? 'Did we?'

The subject of the sentence may or may not take the -n- infix:

nayanjj/nayaji.

full

One informant gives alternative/forms with a final vowel:

e.g. lurañajjñnawa, etc.

- II. On the function of the infix -ni- in verbs, cf. Grammar, Lesson XVII;
on the function of the infix -ya- in verbs, cf. Grammar, Lesson XIX.

NOTES

- 1 Asqui jayp'u 'good evening'
- 2 Janiw cunas lurañjamãquiti. 'There is nothing to be done.'
-jama- ;after an infinitive ending (with the loss of final vowel of the infinitive ending), indicates possibility or opportunity of performing the action; in the negative, the compound negative suffix -Vquiti is added (cf. Lesson III).
e.g. Thaquejj lurañjamawa. 'The road is ready (in condition) to be laid.'
- 3 Wali caroruw aljitu. 'He sold it to me at a very high price.'
'at a price, for ___ pesos' is expressed by -ru.
- 4 May achicasiañ munsma. 'I have a favor of you.' achicasiaña/achicaña
'to request, ask'
- 5 imascapintwa 'You are always saving'; imaña 'to save'; -pini- placed after the infinitive stem and before personal endings.
aljt'ita 'sell me some (just for awhile)'
-t'a- infix attached to the verb stem connotes a limited space of time.
e.g. sart'a 'I will go (for a moment).'
- 6 camãcharaquiãñnisti? 'What are we to do?'
- 7 Aljt'aquitay 'So sell me some (for the while).' Cf. note 5 above.
pã arrob ch'okec munta. 'I only want two twenty-five pound weights of potatoes;' -c 'only'

LESSON XXIV - Dialogue - Notes

- 8 'Wait just a moment.'
- 9 yakha 'another, other'
- 10 carga 'load' (cf. Spanish carga).
- 11 orake 'ground, terrain'
- 12 Nayajj janiw kollker aljañ muncti 'I don't want to sell it for money.'
Cf. note 3 above.
- turqui 'change;' turcaña 'to change, exchange, barter'

LESSON XXV - Pñ tunca pheskanir leccionaVocabulary - Arunaca

awatiri	pastor	shepherd
castellano (castillanu)	castellano	Spanish
caturi	pescador	fisherman
kont'asiña (ru)	sentarse	to sit down
kholliri	agricultor	ploughman, farmer
pantjasiña	equivocarse	to be mistaken
phayiri	cocinera	cook
tonko	maíz	corn
utachiri	albañil	builder
apuchiri	labrador	worker

Grammar - Suma parlañataqui

I. Imperfect negative:

1 <u>sarcayñtti</u>	<u>sarana</u> <u>sarcayñtanti</u>	<u>sarapñvñtanti</u>
<u>sarcñtanti</u>	<u>sarcñtanti</u>	<u>sarapñntanti</u>
		<u>sarapñyñtti</u>
		<u>sarapñtanti</u>
2 <u>sarcayñtati</u>		<u>sarapñvñtati</u>
<u>sarcñntati</u>		<u>sarapñntati</u>
<u>sarcñnti</u>		<u>sarapñnti</u>

Analysis: all but third person forms:

verb stem + (plural infix) + negative -ca- + -ayñ- + ending + negative -ti.

or: all forms except the first person forms:

verb stem + (plural infix) + -ca- + -an- + ending + -ti.

1st person forms: verb stem + (plural infix) + -ca- + -atan- + -ti.

(N.B. Rudimentos gives this form without -n- before the ending: e.g. jumaji sarcñntati.)

The endings are identical to those of the imperfect positive (cf. lesson XXIII).

LESSON XXV - Grammar

II. -ta 'over, because of'

e.g. Jupajj janiw wawapat jachcãnti. 'He wasn't crying over his children.'

The -t of ucat 'therefore' also has this meaning: 'for that, because of that.'

III. Infinitives may serve as nouns and may be combined with nominal suffixes:

e.g. Jupanacajj janiw is t'ajjsiñamp t'ant' lurañamp yaticapcãnti.
'They didn't teach me how to wash clothes or make bread.'

IV. On the use of -ri, cf. grammar, lesson VI.

NOTES

- 1 llaquita 'sad, troubled' passive participle.
- 2 isthapitanwa 'she was dressed'; infinitive isthapitähña
wisqhu 'sandal'

LESSON XXV - Dialogue - Notes

- 3 jan awquini, jan taycani 'without a father and without a mother.
awqui 'father' (more formal than tata).
tayca 'mother'
jan 'without' -ni indicates possession
qhitinpachasa 'where is he from?' pacha indicates time, place.
- 4 wajchãpachawa 'he must be an orphan.' pacha here means 'ought to be';
the conversion of the noun to a verb stem is accomplished by
lengthening the final vowel of the noun.
ughãmapiniw 'always thus' -pini 'always'
- 5 Inas jupajj callencascchi. 'He is probably in the streets.'
- 6 Uca yokallan uc sarañamawa. 'You must go to see that boy.' Lit. 'You
must go to that boy's (place).'
- 7 Nayajj janiw wajchanacat llaquischãyãtti. 'I wasn't very sad about
orphans.' Cf. -t, cf. Grammar notes to this lesson.
jiwaña 'to die'
- 8 cusisiraquiniwa 'he will also be happy.' Infinitive cusisiña.
- 9 Inas jan kollk gastañasãcchiniti. 'Perhaps we won't have to spend
money.' Cf. Spanish gastar 'to spend, waste.'
- 10 Wal mank'at awtipacha. 'He should be very hungry.' Cf. above note 4.
- 11 Wajchanacatjja amtasinasapuniwa. 'We must always remember the orphans.'
amtasiña 'to remember.' The use of the suffix -t(jja) 'of, about'
parallels the Spanish expression acordarse de. -nuni- 'certainly,
always' is attached to the pronominal suffix in nominal constructions
or to the personal endings in verbs - before -wa.
e.g. ughãmapiniwa 'It's always that way.'
sarjjapiniwa. 'I'll certainly go.'
acapacha 'world' (literally, 'this place')
cunaymani 'all kinds, various'
- 12 lakay 'then fast': laka + ya
irpaña/irptaña; the verbal infix -ta- conveys the meaning of 'beginning
the action' cf. Lesson XV. After a verb of motion, the -ri form is
required, note change of -a- in infinitive stems to -i- before -ri:
e.g. irpta- / irptiri.

LESSON XXVI - Pã tunca sojitanir leccionaVocabulary - Arunaca

junt'u	caliente	hot
khatiña	cosinar	to cook
khepata	después, en seguida	after, immediately
nayrakata	primero	first
ucapacha	ese tiempo	that time
ucchañcama	mientras tanto	in the meantime
ucqha	ese momento	that moment
ucsa	al rato	immediately
ucspacha(pacha = 'place, time')	inmediatamente	at once, immediately

Grammar - Suma parlañataqui

- I. Nayajj nayrakat isthapis', ucat marc sarã. 'First I'll get dressed, then I'll go to the village.'

N.B. Before ucat, the verb may lose its final vowel, except when the final vowel is long.

II. Models for subordinate clauses:

- (a) Pur'i jan pur'i ucspachaw, nayajj pokot alas'. 'As soon as I (will) arrive (when I arrive), I'll buy myself some bananas.'

Future verb + jan + future verb + ucspachaw 'as soon as, immediately'

The final vowel of the verb may be elided if it is not long.

e.g. Khatin (khatini) ucspachaw, mank'asiñãni. 'As soon as he cooks, we'll eat.'

- (b) Tatajjajj puripan ucsaw, nayajj pankaranac ayrũ. 'As soon as my father arrives, I'll plant flowers.'

-ipana (attached to the verb stem) describes the action of a subject other than that of the main clause.

N.B. The noun or pronoun representing the subject of the subordinate clause loses its final vowel when followed by -ipana:

e.g. Juan purinipan... 'When Juan arrives...'

Nay parlipan... 'When I talk...'

LESSON XXVI - Grammar

- e.g. Tatam puripan ucsaw, jumaji pankaranac ayrũta. 'When your father arrives, you'll plant flowers.'
- Cullacap puripan ucsaw, jupaji mank'phayani. 'When his sister arrives, he'll cook the food.'
- Tios puripan ucsaw, jiwasaji pelot anataññi. 'When our uncle arrives, we'll play ball.'

When the subject of a subordinate clause with -ipana ucsaw is plural in number, the plural infix -pji- precedes -ipana to form -pjiipana and is attached to the infinitive stem:

- e.g. Amigonacaji puripjiipana ucsaw, navaji pankaranac ayrũ. 'As soon as the friends arrive, I'll plant flowers.'
- Amigonacaji jutapijipana ucsaw,... 'As soon as the friends come,...

-ipana may be attached to non-verbs as well:

- e.g. Int jalsunipan ucsaw, navaji pankaranac ayrũ. 'While it is sunrise, I'll plant flowers.'

- (c) Tatajjaji parlean ucchañcamaw, navaji kapũ. 'While my father is talking, I'll spin.'

-ca- attached to the verb stem indicates an action contemporaneous with that of the verb in the main clause. The personal endings of the future tense (minus their final vowel) follow -ca-. The subject of the subordinate clause is different from that of the main clause; either the adverb ucchañcamaw 'in the meantime,' ucqhaw 'that moment', or ucapachaw 'that time' may be used in this construction:

- e.g. Navaji, jall purcan ucapachaw, yap lurũ. 'While it is raining, I'll work the fields.'
- Jupanacaji, jall purcan ucapachaw, yap lurapijani. 'While it is raining, they'll work the fields.'
- Andres purcan ucqhaw, navaji mũ liq'ovej alũ. 'When Andrés arrives (at the time), I'll buy one fat sheep.'
- Jum purcãt ucqhaw, jupaji machak isinac alasini. 'When you arrive, he'll buy himself new clothes.'
- Jiwas purcaññan ucqhaw, jupaji suma t'ant'anac mank'ani. 'When we arrive, he'll eat some good bread.'

LESSON XXVI - Grammar

- (d) Jilajajj yap lurcan uca khepat, nayajj lurarquŷ. 'After my brother works the field, I too will work the field.'

The subjects of both clauses are not identical; the infix -raqui- appears between the infinitive stem and the future tense endings.

SUMMARY

- (a) 'as soon as I..., I...' = purŷ jan purŷ ucspachaw, nayajj
Different subject in both clauses or same subject.
- (b) 'as soon as he..., I ...' = ...puripan ucsaw, nayajj
Different subject in each clause.
- (c) 'while he/it..., I...' = ...-ca- ucchañcamaw, nayajj
Different subject in each clause. ...-ca- ucapachaw, nayajj
 ...-ca- ucghaw, nayajj
- (d) 'after he..., I...' = ...-ca- uca khepat, nayajj
Different subject in each clause.

III. In interrogative sentences, the particle -ti may be attached to the adverb:

- e.g. Purŷt jan purit ucspachat, jumajj rokot alasŷ? 'When you arrive, are you going to buy bananas?'

NOTES

1 'Is it of tin or of straw?'

2 Fiest luraña 'to have a fiesta.' Cf. Spanish hacer una fiesta.

LESSON XXVI - Dialogue - Notes

- 3 Cuartelat mistjjeti? 'Has he left the barracks?' Spanish cuartel 'barracks;' mistuña 'to leave.' The suffix -t 'from' parallels the Spanish construction salir del cuartel.
- 4 'What is the name of that son who is in the barracks?'
- 5 Casarsiña 'to get married.' Cf. Spanish casarse.

NOTES

- 1 jichhpacha 'right now.'
- 2 waña 'dry'
lupiw wal lupi 'the sun burned a lot.'
- 3 janit khech'añĥqui? 'won't you have to irrigate?'
Note the shift of negative -ti from the verb to iani in negative interrogative statements.
- 4 clavo (calawu) 'nail.' Cf. Spanish clavo.
munasiña 'to be needed' (lit. 'to be wanted').
yanapt'aña: the infix -t'a- after the verb stem and before the infinitive/personal ending indicates 'permission.'
e.g. mistuña 'to leave'
mistt'aña 'to permit to leave'
- 5 mantaña [ru] 'to go in, enter.'
- 6 lawā 'stick, log'
- 7 tucuyasaji (infinitive tucuyaña 'to (cause to) finish') 'having finished': a participle whose subject is the same as that of the main verb and whose tense/aspect is determined by that of the main verb. The infix -sa- replaces the infinitive ending.
- 8 tucuyjitwa 'I have finished': the infix -ji after the verb stem can express the notion of completion: e.g. luri 'he did' / lurjjewa 'he did it all'
- 9 khatita 'cooked': passive participle of khatiña 'to cook'. The passive participle is formed by replacing the infinitive ending by -ta.
- 10 Aljamsaya 'sell them'. Infinitive stem + msa + ya; pl. aljapjamsaya.
- 11 sum uñjaña 'to take good care of.'

LESSON XXVII - Pñ tunca pakalikonir leccionaGrammar - Suma parlañataqui

- I. Constructions using camachaña 'to do something' with the dubitative future.
 Infinitive stem + (plural infix) + -raqui- (interrogative infix) + future personal endings + -jja.
-qui- infix indicating possibility: nayaquiya 'possibly I'
-ya 'then' (optional)
 e.g. Petronajj janiw marc sarañ munquiti, camacharaquëjja, nayaquiya sarchi. 'Pedro doesn't want to go to the village. What am I to do? (Perhaps) I'll go.'
- II. Construction using cunarac 'what then' + future (+ interrogative -sti/-jja) with the dubitative future
 (a) e.g. Tatajjajj janiw kapcaniti, cunarac lurasti, nayaquiw kapchi.
 'My father will not spin. What am I to do? (Perhaps) I'll spin.'
-sti frequently accompanies -raqui- in the same clause:
 e.g. Kawkharac muntasti? 'How many do you want?'
- (b) cunarac and the future (+ -jja):
Joseajj janiw Pedron utap iccaniti, cunarac lurajja, nayaquiw icchi.
 'José doesn't want to sleep in Pedro's house. What am I to do? (Perhaps) I'll sleep there.'
- N.B.: Because doubt or uncertainty is being expressed, -wa is not attached to a future verb form following camachaña or cunarac. The particles -sti and -jja are both omissible.
 One informant offered a contracted form camachi? 'What am I to do?'

NOTES

- 1 utachañar: infinitives, like nouns and pronouns, may take the suffix -ru. The -ru is required with yanapaña.
- 2 takeniw 'all of them' (animate)
antaña 'to agree'
- 3 jakëpijañapataqui '(in order) to become men.'
- 4 tantachasña 'to get together'; tanta 'meeting'
jawsaña 'to call over'
- 5 Camsapjianisa? 'What are they saying?' The infinitive is camsana 'to say what': a contraction of cama 'what' + saña 'to say.'
- 6 Ist'apjjañani 'let us listen;' infinitive ist'aña 'to listen.'
- 7 'leader of the community'
- 8 arsuña 'to speak'
- 9 sapa mayniw 'each one'
adobcam 'adobes each', -cama 'each'
- 10 Alcalde (alcanti) 'the mayor'
- 11 jisct'aña 'to ask'
- 12 Jupatejj...muncanejja. 'If he does not want to help' Conditional clauses are formed by the construction subject + -(te)ija...verb + -jia
janipin: -pini- indicates certainty.
ucarjamaw 'regarding that' -jama- 'regarding' The final vowel of the word preceding -jama- is dropped.
amuyaña 'to think'

LESSON XXVII - Dialogue - Notes

- 13 acsãjjar past'anim 'he is passing by over here'
acsã 'over here'; ucsã 'over there'. The pronominal suffix -sa-
(with long vowel before -jja) indicates direction:
e.g. acsara 'to this side' ucsara 'to that side'
Cf. Spanish pasar a.
- 14 oraket 'by means of land'; -ta indicates means or manner.
(Cf. expressions of the type nayarojj mank'at awtjitu.)
- 15 Secretario general (sicritãr ginirala)
apakaña 'to take away'. The verbal infix -ka- before the infinitive
ending indicates 'action away from;' e.g. apaña 'to carry/apakaña
'to take away.'
munaña 'authority; will'; munañap ampiquiw 'on his authority.'
nayatji 'from me.'
- 16 'I don't have fields to cultivate;' nayanjj: -n- denotes possession.
- 17 yãmas 'at least'; (possibly the components ya and mas- of masuru)
- 18 Cunayman ch'amampiw lit. 'with all sorts of effort.'
ch'ama 'force; difficult'
- 19 inlrunacas 'workdays,' lit. 'full days': ina + uru + naca. Long
vowel results from contractions of a + u.
- 20 Janiw yanapasirjamãcti. 'I'm not in a position to help.'
-jama- added to infinitives or -ri verb-forms introduces the meaning
of possibility or opportunity; the last vowel of the verb is elided:
e.g. lurañjanawa 'it can be done'
In the negative, the final vowel of the suffix is lengthened and the
negative -cti/-quiti attached: e.g. janiw jutañjamãquiti
'can't come; no possibility of coming.'
- 21 Jumanacatejj...churijapjjetãjja 'If you return...' The infix -jja-,
inserted after the verb stem and before the plural infix, indicates
the return of the action: e.g. jutaña 'to come' / jutjjaña 'to come
back'
catokaña, catokasiña 'to receive' / catokasjjaña 'to receive (back)'
take chuymaw 'of good will' (lit. 'all the heart')

LESSON XXVII - Dialogue - Notes

- 22 janiw...munctaniti 'he doesn't want (to give) you'
churchma 'I will (probably) give you.'
- 23 orak catokasijh ucqhajj 'when I receive (future) the lands (back).'
Cf. above, note #21.
trabajaña (ravajaña) 'to work.' Cf. Spanish trabajar.
- 24 cuntejij jumanacajj sapquistajj uca 'about what you have told me here.'
On saña, cf. dialogue, lesson XX.
- 25 yanapasiraquim 'then help'
utachañanj: the -na- suffix denotes location or time when. The suffix -jja (with elision of the preceding vowel) also emphasizes time when.
- 26 Walicipin uqham chuymjapj estajja 'How good indeed that you have consoled me this way.'
chuymjana 'to console.' Cf. chuyma 'heart'
- 27 catuyijjhmh 'I will give over.' On -jja, cf. above, note #21.
catuña 'to seize'/catuyaña 'to deliver, give over' (-ya- causative infix)/catuyijaña 'give back.'
- 28 uchawa 'I will put, contribute': infinitive uchaña.
- 29 orake churjjataj 'with the lands delivered over.' (passive participle)
- 30 khepurusti 'the following day' (= jutir urcjj) from khepa 'following' + uru 'day' + -sti.
Orakepācāns 'his lands': the suffix -VcV- (where V represents reduplication of the preceding and following vowels to form 2 long vowels) indicates 'place':
cf. acāca 'these places'; similarly, ucāca, churīca, ghavāca.
The suffix -n(a)- 'location, possession' and -s(a) 'exclamation' may be attached at the end.
c'uchi 'happy'
īcijjataña 'to obtain, receive'

LESSON XXVIII - Pá tunca guimsakallkonir leccionaVocabulary - Arunaca

ancha	demasiado	rather, too much
anchaquití	ojalá	would that
casarasiña	casarse	to get married
casaru	casado	married
cusisiña	alegrarse, estar alegre	to be happy, rejoice
ch'amuña	chupar	to suck
chhakata	perdido	lost
dulce (tulci)	dulce	candy
jac'u	harina	flour
jan ucajja	si non	if not, otherwise
jiwaña	morir	to die
kapu	huso	spindle
laca	boca	mouth
manteca (mantica)	manteca	lard
profesor (prufisura)	profesor	professor
puqhu	olla	pot, pan
ucampisa	pero	but
yawiña	segar, guadañar	to cut, shear

Grammar - Suna parlanataqui

- I. Potential/conditional positive: 'to be able to ____, can ____, could ____, would ____.'

	<u>saraña</u>	
<u>sarirista</u>	<u>sarsna</u>	<u>sarapjisna</u> <u>sarapjjerista</u>
<u>sarasma</u>		<u>sarapjiasma</u>
<u>saraspá</u>		<u>sarapjiaspa</u>

Analysis: For all forms except 1st person singular and plural:
infinitive stem + (plural infix) + -s- + personal ending.

LESSON XXVIII - Grammar

1st person singular and plural: verb stem + (plural infix) + -iri-s- + personal endings. When the infinitive stem ends in -u-, uri-s- is added: e.g. kapurist

endings:	<u>-ta</u>	<u>-na</u>	<u>-na</u>
			<u>-ta</u>
	<u>-ma</u>		<u>-ma</u>
	<u>-pa</u>		<u>-pa</u>

The particles -wa and -ija may be attached to the potential positive forms (in the 1st person singular and plural, the last vowel is elided: sariristwa). Interrogative statements are formed by the addition of -ti to the personal ending (in the 1st person singular and plural, to the last consonant: sariristti?)

After ucampisa 'but' the negative is contracted to jan; -wa is rarely found in subordinate clauses.

e.g. Nayajj marc sariristwa, ucampis yap lurañajjawa. 'I would go to the village, but I have to work the fields.'

Lacajjaw usutu, ucat jan aych mank'cti, jan ucaji mank'eristwa.

'My mouth hurts, so I don't eat meat; if not, I would (could) eat'

Tatajjaw jiwi, ucat jan cusisctati, jan ucaji cusisiristwa.

'My father died, so I'm not happy; otherwise, I would be.'

II. Optative mood: 'would that _____' To express doubt in the future, anchaqui 'rather' is used with the future tense forms; the negative infix -c- is inserted after the verb stem; the particle -ti is attached to anchaqui. The particle -ti (stressed) often occurs in subordinate clauses.

e.g. Nayajj kharürojj Chuquiag sariristwa, anchacuit tatajjaji muncani

'I would go to La Paz tomorrow, I hope my father wants to (would that my father go).'

III. Formation of passive participles: the infinitive ending is replaced by -ta:

e.g. chhakaña 'to lose' / chhakata 'lost'

NOTES

- 1 Todos Santos (tol santu, туру santu) 'All Saint's Day.'
- 2 alma 'soul'
- 3 iryasiña 'to send (for)': the causative form of iraña. Note the use of ru, corresponding to Spanish enviar a.
- rezayaña 'to say prayers, have prayers said; formed from rezaña. Cf. Spanish rezar 'to say prayers.'

LESSON XXVIII - Dialogue - Notes

- 4 cunapachasa? 'when?' (lit. 'what time?')
- 5: N.B. durative verb form; possibly because of -qui- 'only'. (We would expect here the punctual form jiwi-)
- 6 yungasa (yuncasa) 'yungas region'
caña 'cane.' Cf. Spanish caña
- 7 'My fields are still not worked.' Lurata: passive participle; in the negative, -Vquiti is attached.
- 8 yakhanaca 'other things' (lit. 'others').
- 9 tucjapijitaia 'You are wasting' : infinitive tucuna 'to finish' + the verbal infix -ja- indicating completion, placed after the verb stem cueste 'costs: the Spanish form is cuesta.
- 10 Cunamatarac utipacha? 'How will it be?'
- 11 'Is it certain that the sons will come?'
chekpachapunit: cheka 'certain' + -pacha- indicates possibility + -puni- indicates certainty. N.B. the possibility of attaching a variety of suffixes to the stem. The -pacha infix is repeated in the verb.
- 12 ucapi 'so it is': the -pi is a suffix of exclamation.
cunjamaquiqui 'so it will be.' -sa of nayas indicates exclamation.
- 13 almanña 'to have a soul to whom to pray.' -ni- marks possession.
- 14 jutatap 'you must come (of course)' cf. above, note #12.
-

LESSON XXIX - Pĥ tunca llĥtuncanir leccionaVocabulary - Arunaca

apthapiña	recoger	to gather (in), pick up, collect
awti	sequía; otoñp	drought; autumn
caya	caya	frozen oca
cayachaña	hacer caya	to make frozen oca
-cucha	si, que	if
ch'uñu	chuño	frozen potato
ch'uñuchaña	hacer chuño	to make frozen potatoes
jiwaña	morir	to die
juch'usa	delgado	thin
jurplrojj	pasado mañana	the day after tomorrow
juyphi	helada	frost
lanqhu	grueso	thick
lanti	en vez de	instead of
tincuyaña (koka)	derribar (árbol)	to fall and stump a tree
vaca kallu (waca kallu)	ternera	calif
kallu	cría	suckling (of animals)

Grammar - Suma parlañataqui

I. Potential/conditional negative:

sarquiristtisarcsnatisarapcsnati
sarapquiristtisarcasmatisarapcasmatisarcaspatisarapcaspati

Analysis: negative -c- is inserted after the verb stem and -ti affixed at end. Endings same as potential/conditional positive.

N.B. If the infinitive stem ends in a long vowel, that vowel is retained and the negative -c- is attached to it:

e.g. kollkenĥquiristti 'I wouldn't have money'

The plural infix -ap- follows the verb stem.

II. -ta 'from'

acat pĥ mararorji 'in 2 years from now' (lit. 'from here to 2 years')

Nayaji jutir maraji janiw yap lurquiristti. amalaycuteji ilajjaw

Chuquiagut purinini. 'I couldn't work the fields next year because my brother is arriving from La Paz.'

LESSON XXIX - Grammar

Jivasaji jutir maraji janiw ch'ok yapuchcsnati. inas acat pã mararoji yapuchachchirãni. 'We can't work the potato field next year, but perhaps in 2 years time we may be able to.'

III. lanti 'in place of:

nava lant 'in place of me'

tatajj lant 'in place of my father'

anchaquit jilajjaji naya lant sarcani 'It would be better if (rather) my brother went instead of me.' (Ebbing also suggests constructions of the type lantejja, nayan lant 'in place of me').

IV. -cucha 'rather, better': attached to nouns and pronouns.

e.g. Janiw nayajj sarcãti, jumacuch saram. 'I will not go; rather you go.
Nayajj janiw yapuchquiristti, Pedrocucha yapuchaspajja. 'I can't work the fields; it's better if Pedro could.'

(N.B. The addition of the -jja suffix emphasizes conditionality.)

V. Distribution of -wa in cunalaycutejj clauses: after cunalaycutejj 'because', -wa can be attached to the subject of the clause (even in the presence of the negative iani):

e.g. ...cunalaycutejj jilajjaw Chuquiagut puriniã.

...cunalaycutejj Joseaw casarasini.

...mantecaw jan utjquti

VI. Review of 'when...then' clauses (cf. lesson XXVI).

e.g. Tatajjajj uman, ucqhaw umã 'When my father drinks, then I will drink.'

VII. -chaña: verb-forming suffix added to nouns meaning 'to make'

e.g. caya 'frozen oca' / cayachaña 'to make frozen oca'

ch'uñu 'frozen potato' / ch'unuchaña 'to make frozen potatoes'

NOTES

- 1 Note the choice of voluntariojj in place of voluntariomp. Either form is possible. Possibly the first -mpi is omitted because of its distance from jakenacampiw.

LESSON XIX - Dialogue - Notes

- 2 parlt'asina 'to converse.': -ta- after the verb stem expresses courtesy.
- 3 munapjaractwa 'also want': -raqui- is inserted after the plural infix and before the personal ending.
- 4 waquichaña 'to prepare'
juyphi 'frost': juyphi pacha 'cold season'
jallu pacha 'rainy season'
awti pacha 'dry season'
- 5 yatisina 'to get to know'
- 6 cunjamsa 'how': -jama- 'only'. The nominal suffix -ta expresses 'means, manner.'
cayuta 'by foot'/cayut saraña
autota 'by car'/autot saraña
caballota 'by horse'/caballot saraña
- 7 jumataji... 'if you help us.'
- 8 kawkhürus 'in how many days'
- 9 tucuñcamaw 'until finishing': infinitive + -cama- 'until' (with elision of final vowel of the stem).
aru 'word'
jayrasipquiristti 'we can't be lazy'
- 10 jacana 'to live'
- 11 ventana (wintána) 'window' (cf. Spanish ventana)
cunámats 'in some way'
- 12 mayni in the plural can have the meaning of 'other' (from maya 'one')
oficina (ophisina) 'office' (Spanish)
ucchañcamasti 'in the meantime'
cunatí..... 'concerning those matters which it is possible to do.'
-tí: a subordinate clause marker.
waquisiña 'to be possible.' (cf. waquichana in note #4 above)
-jjata 'concerning.'

LESSON XXX - Quimsa tuncanir leccionaVocabulary - Arunaca

achacu	ratón	mouse
chhokha	pato	duck
jamach'i	pájaro	bird
jan	sin	without
janipini	nunca	never
lechuga (lichuja)	lechuga	lettuce
liwisina	caerse	to fall
liwiña	tirar, echar	to fling, cast (off)
maymāra	el año pasado	last year
q'ispiña	galleta de quinua	cookie made of quinua
usuntaña	enfermarse gravemente	to be seriously ill
walārmanthi	ayer por la mañana	yesterday morning

Grammar - Suma parlanataqui

- i. Past potential/conditional: 'would have _____, could have _____'

saririscāyātasarasānasarapijasānasarapijeriscāyātasarasamānasarapijasamānasarasapānasarapijasapāna

Analysis: for all forms except 1st person singular and plural:
infinitive stem + (plural infix) + -sa- (potential/conditional marker) + personal ending + -ana (past tense marker).

1st person singular and plural: verb stem + (plural infix) + -iri-s + -cāyā- (past tense marker) + ending -ta.

endings:	<u>-ta-</u>	<u>-na-</u>	<u>-na-</u>
			<u>-ta-</u>
	<u>-ma-</u>		<u>-ma-</u>
	<u>-pa-</u>		<u>-pa-</u>

The suffixes -wa and -jja may be attached to the verb, with elision of the final vowel.

e.g. Nayajj mesārmanthejj ovej awatiriscāyāta, jumaw jan munctatejj

'Yesterday morning I would have pastured sheep, (but) you didn't want to.'

N.B. No conjunction links the two clauses; in the second clause, the -wa particle is attached to the subject and -jja to the verb.

LESSON XXX - Grammar

II. Negative past potential/conditional

sarquiriscayattisarcasantisarapcasanti
sarapquiriscayattisarcasamantisarapcasamantisarcasapantisarapcasapanti

Analysis: Same as the positive forms, plus the negative -c- inserted after the verb stem (after the plural infix); the negative -ti is attached to the consonant of the ending.

III. -ini- 'certainly'janipini 'never' (lit. 'certainly not')

IV. Unmarked 'if' clauses:

e.g. Pasir marajj nay utachiriscayata, janipiniw utajj liwiscasapanti.

'If I had built the house last year, it would never have fallen down.'

V. 'Without ___ing': e.g. jan 'without'jan parlasa 'without saying'jan lurasa 'without doing, working'jan munasa 'without wanting'

The infinitive stem is combined with the suffix -sa-; -sa- can be attached only to verb stems, and modifies the action performed by the main verb; the subject of the main verb and the -sa verb is the same.

e.g. Nayajj jichhurojj jan t'awr t'ajiscuiriscayatti, jan yatisaw lurta.

'I wouldn't have worked the wool today without knowing what I was doing.'

VI. usuntaña 'to be ill.'

The verbal infix -nta- which precedes the infinitive ending indicates action which precedes from outside and proceeds inside:

e.g. apaña 'to carry' / apantaña 'to bring in from outside.'jalluña 'to rain' / jalluntaña 'to rain in'

or intensity:

usuña 'to be ill' / usuntana 'to be seriously ill'catuña 'to seize' / catuntaña 'to capture, arrest'VII. -jj- 'already': parlaña 'to talk, speak' / parljjaña 'to speak already'e.g. Niy aymarjj parljjatti? 'Do you speak Aymara already?'

Grammar - Suma parlañataqui

I. Negative conditional clauses:

Future negative.....Future negative

'If I don't/won't/wouldn't..., I will not....'

e.g. Navajj janitejj trabajcáija, janiw utanicáti.

janitejj + future negative -ija

Janitejj iquinat sartcáija, junt'u umajj pist'aniwa. 'If I won't get up from bed, the breakfast will be all finished.'

II. Past potential/conditional negative.....potential negative

'If I didn't..., I wouldn't be able to...'

e.g. Janitejj nayajj trabajquiristija, janiw utan'quiristti. 'If I didn't work, I wouldn't be able to have a house.'

III. The verbal suffix -Vw i- is added to verb stems to indicate the 'place where the action is performed':

e.g. thokona 'to dance' / thokówi 'place where one dances'

wajana 'to roast' / wajáwi 'place where one roasts'

umaña 'to drink' / umáwi 'place where one drinks'

'place where fiestas take place'

LESSON XXXI - Grammar

The resulting form with lengthening of the final vowel may function as an infinitive stem:

e.g. Nayatejj jan k'omachquiristjja, ac'cajj jan sarnak'aw'caspati.
'If I didn't clean up, these places would be impossible to walk through.'

IV. Verbal stem -ca- + -aw'i- (= -c'aw'i-) inserted before the endings expresses continuous action:

suyc'aw'iña 'to be waiting all the time' / suyaña 'to wait'

jachc'aw'iña 'to be (always) crying' / jachaña 'to cry'

larc'aw'iña 'to be (always) laughing' / laruña 'to laugh'

V. -pin(i)- 'always' inserted before endings.

The infix is attached to the infinitive stem; punctual endings are attached to -pin(i)-, with elision of the final vowel.

e.g. sarapintwa 'I always go' (sara + pin + twa)

sarapiniwa 'he always goes' (sara + pin + iwa)

sartapjjapintanwa 'we always get up' (sarta + pjja + pin + tanwa)

VI. -Vca attached to demonstrative pronouns forms a noun indicating places:

aca 'this' / ac'ca 'these places'

qhaya 'that over there)' / qhay'ca 'those places over there'

VII. The suffix -rara may be added to nouns to form an adjective indicating 'a lot of':

k'ala 'rock' / k'alarara 'stony'

ch'aphi 'thorn' / ch'aphirara 'thorny'

Grammar - Suma parlañataqui

I. Pronominal objects with positive punctual verbs:

Pronominal objects of the verb are attached to the verb stem. The full form pronominal object pronoun is also often used. Pronominal objects are attached to verbs when a suffix / ^{can be} attached to the full form pronominal object:

- e.g. Kawkha kawrs nayajj jumar chursma? 'How many llamas did I give you?'
Pakallk kawr nayajj jumat apaksma. 'I took seven llamas away from you.'

Pronominal objects are also used when the object of the verb is a pronoun not necessarily expressed in its full form .

- e.g. Cunats jan aymarar parlista? 'Why don't you speak to me in Aymara?'

Pronominal objects are also used to indicate the object of a verb in -ri:

- e.g. Visitiriw jutsma. 'I have come to visit you.'

In interrogative statements which lack a question word (how many...?) the interrogative suffix -tí is appended to the pronominal object; the suffixes -wa and -ija may also be attached to the pronominal object.

- e.g. Munistatí? 'Do you want me?'

If the subject of the verb is plural in number, -apji- is always inserted in the verb. If the object of the verb is plural in number, -apji- is inserted in the verb except when the object is the 3rd person ('he, them'). In order to specify whether the 3rd person subject/object is singular or plural in number, the full pronominal subject/object must be included in the sentence:

LESSON XXXII - Grammar

The indefinite object ('it, that, them') is not expressed. To specify, an indefinite pronoun could be inserted.

The form churapjje is ambiguous in three ways:

- (a) 'he gave them' (= 'he gave it/them to them')
- (b) 'they gave them' (= 'they gave it /them to them')
- (c) 'they gave him' (= 'they gave it/them to him')

With the addition of the subject, the object is no longer ambiguous:

jumajj churapjje 'he gave them'

With the addition of the object, the subject still remains ambiguous:

jupanacar churapjje 'he/they gave them'

To eliminate the ambiguity between (b) and (c), add both the full pronominal subject and object.

- (a) Jupajj jupanacar churapjje
- (b) Jupanacajj jupanacar churapjje
- (c) Jupanacajj jupar churapjje

Other cases of ambiguity in the verb form are as follows:

- (a) 3rd person singular/plural subject + 1st person dual object
(jupajj/jupanacajj) jiwasar churistu
- (b) 1st person dual/dual plural subject + 3rd person plural object
(jiwasajj/jiwasanacajj) jupanacar churapjtan

N.B.: In the following frames, the plural infix in the verb seems to be optional:

- 'we' (dual) to 'them'
- 'they' to 'us' (dual)

Optionality of the plural infix will be marked by an asterisk (*) after the plural infix.

NOTES

1 anata 'carnival'

waquichasiña 'to prepare oneself, get ready'

2 terno (tirnu) 'suit' cf. Spanish terno.

ch'ucuyasiña 'to have sewn for oneself'

LESSON XXXII - Dialogue - Notes

3 awqui 'father': more formal than tata
imasiña 'to keep, have left'

4 jan uqhämämti 'don't be like that'

5 caröchejjaya 'most likely expensive'

The compound suffix -Vchejja- (from dubitative -chi- + -jja-) expresses likelihood. Caro (caru) 'expensive'; cf. Spanish caro.

6 cuti 'time (occasion).'

churascäma 'I am giving you': the meaning of the infix -cä- is not clear (perhaps a form of -qui- 'only'?)

7 cosasanac 'things.' Cf. Spanish cosa. The suffix -sa is a marker for countable objects (Cf. also horasa, lesson 11, p. 111).

8 c'uchiqui 'happily.' The adverb is formed by adding -qui to the adjective c'uchi 'happy.'

bolsillo (pulsillo) 'pocket'

uchasiña 'to put (into his)' (from uchaña)

9 Tatajjaw jan munquit nayan thokoñajja 'My father doesn't want me to dance' (lit. 'doesn't want my dancing')

N.B. The relative clause in English introduced by that is expressed in Aymara by a nominal clause with the possessive suffix -na.

10 tokena 'to quarrel'

sät pajja 'he spoke'

11 jan parlaniti 'don't speak.' Negative imperative requires the addition of -m- to the infinitive stem plus the negative -ti.

12 ni mayamps 'no more, never again' (lit. 'not with once')

-mpi- may be used with numerals in the meaning of 'with' ni.

13 zapato (sapatu) 'shoes' (Cf. Spanish zapato).

LESSON XXXIII - Quimsa tunc quimsanir leccióna.Vocabulary - Arunaca

ari	filo, afilado	edge (of a knife); sharp
armaña	olvidar	to forget
cuchillo (cuchillu)	cuchillo	knife
chuym usuyaña	resentir	to resent
chuyma		heart
usuyaña		to make sick
chuymjaña (ru)	consolar	to console
imantaña	ocultar	to hide
mayt'ana (ru)	prestar	to lend
ni	ningún	no
yatiyaña	comunicar	to make known, communicate

Grammar - Suma parlañataqui

- I. Pronominal objects with negative punctual verbs. Identical to the positive punctual forms, with the addition of the discontinuous negative infix:
verb stem + (plural infix) + negative -c- + pronominal object + negative -ni
e.g. chursma 'I gave (it) to you'
 janiw churcsmati 'I didn't give (it) to you.'
- II. Word order: the indirect pronominal object generally precedes the direct object and janiw may precede the subject (cf. order in positive sentences, grammar, lesson XXXII).
e.g. MasUrojj janiw nayajj jumar kollk mayt'csmati, cunalaycutejj tatajjar mayt'anajjAnwa. 'Yesterday I didn't lend you money, because I had to lend my father (money).'
- III. ni 'no': may precede ma juc'a 'a little'
The suffix -sa (as in mank's) may be attached to countable nouns and requires the elision of the final vowel of the root of native words (cf. also p. 111 above on horasa.)
e.g. MasUrojj janiw Mariajj jumar ni mĥ juc'a mank's wajjt'ctanti.
'Yesterday Maria didn't present you with a little food.'

LESSON XXXIII - Grammar

IV. Negative jan is followed by a positive verb.

e.g. Nayrlrojj janiw jumajj nayar yatiyquistati, cunats jan yatiyista?

'The other day you didn't notify me: why not?' (lit. 'You notified me, why not?')

Jan kollkenitwa 'I don't have money' (lit. 'Without I have money.')

NOTES

1 ovej ka'lu (iwij kallu) 'lamb' (lit. 'sheep offspring')

2 utani 'inter of the house' The -ni possessive suffix may be attached to nouns; verb endings may be attached to form a verb

e.g. autoni 'owner of the car' meaning 'to have, own ___':

autoniwa 'he owns a car'

autonitwa 'I own a car'

autonicti 'I don't own a car'

LESSON XXXIII - Dialogue - Notes

3 anaquña: 3rd person singular imperfect.

chhakayatayna: 3rd person singular pluperfect. The pluperfect is frequently used in recounting stories, but seems to be rare in colloquial Aymara. Rudimentos suggests that the tense also 'refers to facts of which the speaker has been previously in ignorance' (p. 164).

The forms are as follows:

	<u>saraña</u>	
<u>saratãta</u>	<u>saratãtan</u>	<u>sarapijatãtan</u> <u>sarapijatãta</u>
<u>saratãta</u>		<u>sarapijatãta</u>
<u>saratayna</u>		<u>sarapijatayna</u>

The suffixes -wa and -ija may also be attached; in the 1st person singular and plural, the final vowel is elided when a suffix follows: saratãtwa, sarapijatãtija, etc. In the negative, -c- is inserted after the verb stem (or plural infix) and -ti is attached at the end; in the negative, the plural infix takes the form -pc-:

e.g. nayajj janiw sarcatãtti
nanacajj janiw sarapcatãtti, etc.

4 tama 'flock, herd'

jisct'ana [ru] 'to ask'

chhã 'let's see'

5 tamapancch'i 'perhaps it is in the flock.'

6 tiwula 'fox.' (Cf. tiwula 'uncle' in vocabulary, Lesson I).

achokana 'to bite off (with the mouth)'

7 samart'aña 'to rest'. The -t'a- infix may have the meaning of momentary activity or politeness.

8 mã llaquiruw puritu 'I have troubles' (lit. 'a trouble has reached me')

9 mayni 'the other'

chica 'together'

10 khana 'clear; light.' A verb stem may be formed by lengthening the final vowel.

LESSON XXXIII - Dialogue - Notes

uñjarasiscaquim 'just have a look around'

- ra- indicates action takes place in many places or involves many activities.
- si- reflexive suffix
- sca- durative suffix
- qui- 'only'
- m imperative suffix

- 11 uñjaraña 'to look on all sides, around'
- 12 lip'ichi 'leather, hide, skin'
- utjascaña 'to be, have.' (durative of utjaña)
- 13 uñstaña 'to appear, turn up'
- 14 uñjataña 'to look at': passive participle
- 15 imana 'to hide'
- 16 uñjasinsti 'seeing'

The infix -sina- attached to the infinitive stem (and after the plural infix) forms a past active participle. The action of the participle in -sina- precedes that of the main verb; the subject of the participle and the main verb is the same.

e.g. mank'asina sarjjewa 'having eaten, he left.'

The suffixes -wa and jia may be attached to -sina-, with elision of the final vowel (e.g. mank'asinjia)

LESSON XXXIV - Quimsa tunc pusinir leccionaVocabulary - Arunaca

arjjataña [ru]	defender	to defend
jabona (jawuna)	jabón	soap
jisct'aña [ru]	preguntar	to ask
mayiña	pedir	to request
tijera (tijira(sa))	tijera	scissors
wanu	abono	fertilizer
yänaca	cosas	things

Grammar - Suma parlañataqui

I. Future tense with attached pronominal objects: the endings are attached to the verb stem:

'I' to	'you' sg.	- <u>ñma</u>
	'him'	- <u>a</u> (=1st sing. future)
	'you' pl.	-(<u>apjj</u>)- <u>ñma</u>
	'them'	- <u>a</u> (=1st sing. future)
'you' to sing.	'me'	- <u>itñta</u>
	'him'	- <u>ñta</u> (= 2nd singular future)
	'us' (pl)	-(<u>apjj</u>) <u>etñta</u>
	'them'	- <u>ñta</u> (= 2nd singular future)
'he' to	'me'	- <u>itani</u>
	'you'	- <u>ñtam</u>
	'him'	- <u>ani</u> (= 3rd sing. future)
	'us' (dual)	- <u>istani</u>
	'us' (dual pl)	-(<u>apjj</u>)- <u>estani</u>
	'us' (plural)	-(<u>apjj</u>)- <u>estani</u>
	'you' (plural)	-(<u>apjj</u>)- <u>ñtam</u>

	'us' (pl.)	-(<u>apij</u>)-etari
	'you' (pl.)	-(<u>apij</u>)- ^h tan
	'them'	-(<u>apij</u>)-ani (= 3rd pl. future)

The negative verb forms are identical to the positive forms, plus the discontinuous negative infix: -c...ti.

e.g. churc^hmati, churc^hti, etc.

The prefixes -jja and -wa may be attached directly to the endings.

II. Word order: Subject + full pronominal object + direct object

A -tac construction ('for, for the purpose of') enjoys a free distribution.

e.g. Jutir semanaw nayajj jumar jilamatac pheska iquiri aljama.

'Next week I'll sell you five blankets for your brother.'

Jutir maraw utatac nayajj jumar calamin chur^hma.

'Next year I'll give you tin for your house.'

NOTES

- 1 sataña 'to plant (potatoes, oca, etc.)'
- 2 achuña 'to bear fruit; produce' : achu 'fruit'
- 3 faltaña (phaltaña) 'to be lacking;' cf. Spanish faltar; ucampirus 'now'
- 4 Nayajj jupamp parlĥta. 'I spoke with her.' The pronominal object is not necessary with the conjunction -mpi. When the full pronominal object can be combined with -ru/or -ta is not expressed, the pronominal object is attached to the verb:
e.g. Cunats jan aymarāt parlĥsta? 'Why don't you speak to me in Aymara?' (cf. Grammar, Lesson XXXII).
- 5 inaquiw 'are free.' A verb stem may be formed by lengthening the final vowel and attaching a verbal suffix: inĥscaña 'to be free, unoccupied' (inasciri 'one who does nothing').
- 6 phina 'pile of potatoes, oca.'
Verbal suffix -wava-, inserted before the endings, indicates that the action is being performed 'in passing.'
- 7 visitt'anipjjĥmaya 'I have come to pay you a visit.'
- 8 k'epi 'bundle;' k'epini 'with a bundle' (lit. 'possessing a bundle');
k'epiña 'to carry a bundle'

LESSON XXXIV - Dialogue - Notes

- 9 apayanitu 'he sent me'
- 10 achicana [ru] 'to ask; to solicit'
- 11 uchatawa (from uchana 'to put') 'ready' (i.e. 'put out')
- 12 Janiw karjayapjjātati. 'Don't tire them out.'
- karitajj...wajirasiriwa 'When they are tired, they can gore.'
(lit., 'be gorers').
- wajiraña 'to gore;' wajirasiri 'one who gores'
- 13 wajrantiristam' (the cattle) could gore you.':
potential verb plus pronominal object. Verbal -nta- indicates
action from outside to inside.

		'us' (pl.)	-(<u>apij</u>)- <u>etāna</u>
		'you' (pl.)	-(<u>apij</u>)- <u>āyātam</u>
		'them'	-(<u>apij</u>)- <u>āna</u> (= 3rd pl. imperfect)

*These forms, elicited from two informants and described by Rudimentcs, are identical to the punctual forms (cf. Lesson XXXII).

Ebbing gives other forms:

'you' to 'me'/'us' (pl) itanta/ituna

Ebbing gives alternate forms for some of the other persons. Cf. alternate forms for imperfect tense, Grammar, Lesson 23.

Negative imperfect forms require the addition of the discontinuous negative infix -c...ti to the positive forms: churcāyāsmati, etc.

LESSON XXXV - Grammar

The plural infix in the negative is -p-. When the negative -ti (or -ija and -wa) suffix is attached to the following verbs, the last vowel of the verb is elided:

'I'	to	'him' (<u>churcäyät^{ti}</u>)
'he'	to	'me' (<u>churquitä^{nti}</u>)
'he'	to	'him' (<u>churcä^{nti}</u>)

and when the subject and/or object of the above forms are plural in number.

- II. Preferred word order for positive forms: direct object + subject + full pronominal object + verb:

e.g. Pakallk chawll jupanacajj nayar churapjjetäna. 'They gave me seven fish.'

Preferred word order for negative forms: subject + full pronominal object + janiw + direct object + verb:

e.g. Mas'loij nayajj jumar janiw ques churcäyäs^{mati}.
'Yesterday I didn't give you cheese.'

LESSON XXXV - Dialogue - Notes

NOTES

- 1 ajjsarasav 'fearing.' The verbal suffix -sa- before endings creates an active participle, whose action is contemporaneous with that of the main verb and whose subject is the same as that of the main verb.
- 2 janiw achjasirliquti 'is not one who bites.' (positive form: achjasiri)
- 3 sarnakaña 'to walk, get along'
- 4 p'eken usu 'problem' (lit. 'head' + 'illness')
- 5 apsuña 'to take out'
- 6 janiquiy colerasimti 'don't upset yourself' (cf. Spanish colera 'anger')
mñqui 'quickly'
liq'intana 'to fatten' (from liq'i 'fat')
- 7 mirã 'don't be like that'
tokena 'to quarrel, wrangle'

The negative form requires the insertion of the discontinuous negative morpheme and the negative particle jan:

e.g. jan churquirismati

The plural infix is -p-:

jan churapquirismati

The elision of the final vowel before the negative -ti (and -ija, -wa) is required in the frames 'I/'we' to 'him'/them'.

NOTES

- 1 jawk'ana 'to thresh'
- 2 uca lawanac apt'at 'with those sticks' (lit. 'carrying those sticks').
Besides functioning as passive participles, verb forms in -ta may also serve as active particles.
- 3 pampa 'pampa, plain' (cf. Spanish pampa)
- 4 uñch'uquiña 'to look at, watch.'
jakenacaji uñch'uquipijetaspawa 'the men can see me.'
yanapayasi 'he allows himself to be helped.'
- 5 ucatarac kariscasma 'watch that you not tire out.' (infinitive karisiña). The optative is often used to denote care, attention. The optative is equivalent to the negative potential/conditional without the negative suffix -ti. Ucatarac 'by (means of) that'.
- 6 kalltaña 'to begin'
- 7 jak'ña 'threshing instrument'
- 8 maquina 'machine' (cf. Spanish máquina)
jumanacjam 'like you'. The suffix -jama, with elision of the preceding vowel, also has the meaning 'like.'
The suffix (-jama- may also be preceded by the suffix -r(u) 'to'
e.g. jiwasaji wajchanacar jamapjitanwa 'we are like orphans'
jiwasaji wajchanacjamanjitanwa
- 9 regalo (rijalu) 'gift' (cf. Spanish regalo).
- 10 The suffix -sã indicates exclamation.
- 11 arcu 'pile of unthreshed barley'

LESSON XXXVII - Grammar

II. Negative forms require the insertion of the discontinuous negative

-c...ti with jan: jan churcsmati, etc. The plural infix in the negative is -ap-: jan churapcsmati, etc.

When the subject is 'we' (pl.) and the object 'him/them,' the last vowel is elided before the negative -ti: jan jaysapcstti. The ending -sta with a 1st person subject only ('I' to 'him/them') is replaced by -sti in the negative (not -stati; -stati is the form for the 2nd person subject).

III. -ijata 'concerning, about': requires elision of the preceding vowel.

e.g. uywanacjjat 'about animals'

marcjjat 'about the village'

IV. jan amuyasis: 'without realizing.' Present active participles after

jan 'not, without' are formed by replacing the infinitive ending by -sa:

e.g. inas jan amuyasis nuwapjjchitu 'perhaps they bit me without realizing it.'

It is not necessary to insert a negative infix in the participle.

(Ebbing also lists such participles with a negative infix. The differences are not clear. Perhaps if the main verb is negative, then a negative infix would be expected in the participle as well (added to the verb stem):

e.g. inas jan amuyascas jan nuwapcchituti 'perhaps they didn't hit me without realizing it.' The problem requires further research.)

V. -na in the meaning of 'time when': maran(a) 'in a year'

e.g. mā maran utajj luranāni 'we will build the house in a year.'

In this construction, -ta can also be used:

mā marat utajj luranāni.

VI. Addition of -quiri- /-cori-/-curi- (also -iri-/-ori-/-uri-) to the

verb stem creates a verb phrase meaning 'who is ---'; the forms are always the object of a verb:

e.g. Marcar sarir uñjapjttwa 'We saw him (while he was) going to the village'.

The subject of a verb in -(qu)iri- is not the same as that of the main verb. When the subject of -(qu)iri- is the same as that of the main

LESSON XXXVII

verb, participles in -sisa are used instead (attached to the infinitive stem).
The suffixes -par(u) and -pach(a) may be attached to the verb form:

e.g. Jupanacajj jumanacar inas jachquirpar wayunucupjjstam

'Perhaps they threw you out (while you were) crying'.

Nayajj jupanacar inas wararquirpach jareksta

'Perhaps I screamed at them (while they were) drunk'.

LESSON XXXVIII - Grammar

- II. Negative forms require the insertion of the discontinuous infix -c...i with jan: jan ajisaracchiñati. The plural infix in the negative is -Voc- (where V = the infinitive stem vowel): jan ajisarapcchiñati.
- III. Forms with the suffix -iri- may function both as nouns and adjectives:
 e.g. Jupanacajj jan yăkasir jakenacawa. 'They are not respected people.'
Jupanacajj jach'a jach' tucur jakenacăpjitawa. 'They are proud people.'
- IV. asqui lurăwi 'good piece of work'
-Vwi (V = infinitive stem vowel) primarily indicates place where the action takes place (cf. Grammar, Lesson XXVI). A second meaning is custom or habit of doing the action:
 e.g. anatăwi 'place to place, habit of playing.'
 Finally, -Vwi, in a few cases, serves to form a passive participle (-ta is far more productive in this capacity):
lurăwi 'done, made'
yatichăvrida 'his education, instruction'

LESSON XXXVIII - NOTES

- 1 chhujchhu 'malaria'
- 2 aykoña 'to moan, groan'
- 3 usuw catutu 'the illness has seized me'
- 4 janiw kollasiñjamäquti 'there's nothing with which to cure myself'
- 4 Mirä 'please'
Wawanacajjas warmejjas wali llaquitaw 'my children and my wife are very dejected!
-sa...-sa 'both...and'. The -sa...-sa may also be translated as 'and' (and as such synonymous with -mpi); -sa...-sa differs from -mpi...-mpi in emphasizing the separateness of the units being joined. Cf. the use of -sa to denote a count noun mentioned above.
 Note that the passive participle llaquitaw (like adjectives and nouns) need not agree with its subject in number. (The plural may be formed by either the nominal or verbal pluralizing infix: -ta + naca or -pija + ta: e.g., jutatanacama or jutapijatama 'your arrival'.)
- 5 Cunapachats uqhämätajja? 'Since when have you been like this?'
- 6 walja kokanac taypiruw mantta 'I entered into the midst of many trees'.
taypi 'middle, center'
susuña 'to hover (of a bird)'
- 7 thalayaña 'to shake (out)'; thalaña 'to shake, jolt'
- 8 Chuquiaguruch 'or to La Paz': the interrogative suffix -cha frequently has the meaning of 'or' and may be attached to all parts of speech (with elision of the final vowel), including negative jani (without elision):
 e.g. Yapumajj luratat janicha? 'Are your fields worked or not?'
Cunch munta? '(Or) what do you want?' (= 'Do you want something?')
Muntat janicha? 'Do you want it or not?'
 The expression 'or...or' is rendered in Aymara by repetition of -cha:
 e.g. Umcha vincha muntajja? 'Do you want water or wine?'
- 9 aytaña 'to raise'
vena (wina) 'vein'; cf. Spanish vena.
- 10 ch'ama 'strength'
- 11 quinina 'quinine'; cf. Spanish quinina.
sutin koll 'the medicine's name'
quipat 'in turn': from quiptaña 'to (re)turn'
inyecciona (inticasiona) 'injection'; cf. Spanish inyección.
uchayaña 'to have taken': from uchaña 'to put'.
- 12 Inyeccionataquejj wal ajjsart 'I'm very scared of injections'.
 The use of -taqui with the verb ajjsaña seems to be equivalent to the use of the suffix -ru (the latter may be modeled on Spanish tengo miedo a).
- 13 waliptaña 'to get better'. The verbal suffix -pt- may be attached to nouns and adjectives to form a verb stem with the meaning 'to become...':
 e.g. llamp'u 'smooth, soft, mild' / llamp'uptaña 'to become soft'
uma 'water' / umaptaña 'to become water(y)'
mojsa 'sweet, savoury' / mojsaptaña 'to become sweet'

LESSON XXXVIII - NOTES

- 14 koli 'please'
- 15 umt'ŷta 'you will drink': =t'a- implies an action circumscribed in time or space.
- 16 botella (putilla) 'bottle'; cf. Spanish botella.
pasipan: on verbs with the suffix -ipana, cf. grammar, lesson XXVI.
ucatarac armasiscasma 'take care lest you forget'.

Grammar - Suma parlanataqui

I. Permissive mood: to express the notion 'then, I'll ___' or 'let me ___ then', permissive endings are attached to the verb stem for the 2nd and 3rd persons, followed by the compound suffix -saya; the 1st person singular, dual, dual plural and plural are identical to the future tense forms, plus -saya:

1	<u>sar'asaya</u>	<u>sarañ'nisaya</u>	<u>sarapijañ'isaya</u>
			<u>sarapij'isaya</u>
2	<u>saramsaya</u>		<u>sarapijamsaya</u>
3	<u>sarpasaya</u>		<u>sarapiipasaya</u>

LESSON XXXIX - Grammar

Endings: (=future) (= future) (= future)
 (= future)

-am-

-am-

-pa-

-pa-

e.g. Nayaji sarʰsaya 'I'll go then; let me go then'.

Jutir maraji nayaji uca yapu tayp thaquichʰsaya

'Next year let me build a road across that field'

Aca k'añunac nayaji waranuclʰsava 'Let me throw out the
garbage'

Nayaji aca arad aca chekar aynokʰsaya 'Let me leave this
plow here'

II. Ucatarac 'be careful' is followed by the optative mood, which expresses a wish. The optative is formed from the infinitive stem plus -c-, followed by personal endings. (Ebbing and Rudimentos list alternative forms for the optative.) The optative is very similar to the potential/conditional present which is given alongside for comparison. Note the identity of the dual plural/forms. Cf. also discussion of the potential/conditional present and the optative after anchaquit in lesson XXVIII.

Positive optative

1	<u>saraqurista</u>	<u>saracsna</u>	<u>sarapijsna</u> <u>sarapijaquirista</u>
2	<u>saraquisma</u>		<u>sarapijaquisma</u>
3	<u>saraquispa</u>		<u>sarapijaquispa</u>

Positive potential/ conditional present

1	<u>sarirista</u>	<u>sarsna</u>	<u>sarapijsna</u> <u>sarapijerista</u>
2	<u>sarasma</u>		<u>sarapijasma</u>
3	<u>saraspaspa</u>		<u>sarapijaspaspa</u>

In the negative optative, -c- is removed from the verb and attached either to jani- (to form janic) or to the adverb which introduces the optative clause: ucatarac jan...; -ti is attached to the verb endings.

Negative optative

| 3 | <u>sarcaspati</u> | | <u>sarapcaspati</u> |

e.g. Ucatarac alaji jan utjascaspati 'Be careful that there isn't any on sale'

III. -quipan (-qui + pan) 'having ___' is attached to verb stems to form a present active participle:

e.g. Nayaji tiemp utiquipan mĥ rat waw ichijĥsĥsaya 'Having a moment's time, let me cradle the child in my arms'

IV. Word derivation.

(a) Nouns and adjectives may be used as verbs through the addition of the suffix -chaña (cf. also lesson XXIX):

thaqui 'road' / thaquichaña 'to build a road'

junt'u 'hot' / junt'uchaña 'to make hot, warm'

juri 'wet' / jurichaña 'to wet'

waña 'dry' / wañachaña 'to dry (off)'

The reflexive infix precedes the infinitive ending:

junt'uchasiña 'to get warm'

jurichasiña 'to get wet'

wañachasiña 'to get dry'

(b) The verbal infix -yucu- before the infinitive ending indicates completion of the action, often with the notion of disengagement from the action:

waraña 'to throw' / waranucuña 'to throw out'

liwiña 'to fall' / liwinucuña 'to cause to fall (and leave)'

antutaña 'to let loose, unfasten' / antutnucuña 'to let free (and leave) '*

*(In verb stems with more than two syllables, the infinitive stem vowel is elided.)

- (c) The verbal infix -jiäsi- inserted after the verb stem emphasizes the prolongation of the action:

ichuña 'to carry in one's arms' / ichjiäsiña 'to cradle in one's arms (for a while)'

- (d) The verbal infix -ra- following the infinitive stem connotes distribution of the action: 'to ____ one by one, all over'; -ra- precedes other suffixes:

jiwaña 'to die' / jiwayaña 'to kill' / jiwarayaña 'to kill one by one, all over'

mistuña 'to leave' / misturaña 'to leave one by one'

ñusaña 'to rot' / ñusaraña 'to rot throughout'

- (e) The compound infix -quipa- preceding the infinitive ending implies that the action is carried out from two sides, or in two directions:

uñjaña 'to look' / uñaquipaña 'to look to both sides'

tharuña 'to weed' / tharuquipaña 'to turn over the soil'

jakoña 'to throw, hurl' / jakoquipaña 'to turn over'

The infix may also denote action through or along:

jalaña 'to run' / jalaquipaña 'to walk along, pass by'

thokoña 'to dance' / thokoquipaña 'to jump on top of something'

avisaña 'to advise' / avisquipaña 'to advise from one to the other'

*(In verb stems with more than two syllables, the infinitive stem vowel is elided.)

NOTES

- 1 wallata 'duck'
- 2 paru 'wheat colored'
- 3 sumanacññat 'weren't pretty' (imperfect tense).
- 4 uñjasinjja 'seeing': the participial infix -sina- indicates an action which precedes that of the main verb; the subject of both verbs is the same. The suffix -ija seems to mean 'now, already'; cf. below, #25.
- 5 japññaña 'to burn (robbles, red-hot coals) in the fields'. The underlying noun is japu 'red-hot coal, burnt ash'.
- 6 allññaña 'to bury'
muyñña 'to turn over'
"kheñat" 'explosion' (?)
kellñ 'card'
- 7 mayat mayat 'one by one'
wayuñña 'to take out one by one.' On #22, cf. Grammar notes above.
uclñtu 'then'
- 8 ist'aña 'to hear'
muspharaña 'to marvel'

LESSON XXXIX - Dialogue - Notes

9. chekapunit 'is it really true?'
10. pāchasinā 'to doubt, be of two opinions' (The root is pā 'two')
11. lup'ina 'to think, reflect'
12. warariña 'to shout, cry'; wararquirpach 'who were crying'
13. arsutaparjam 'according to her words (of the duck)'
arsuna 'to speak' -rjama 'according' may also occur in the form
-jama (without -ru-) in which case the preceding vowel is elided:
arsutajama.
14. acatjamata 'all of a sudden'
15. apsuña 'to raise, to take out'. The verbal infix -su-, before the infinitive ending, indicates the action takes place 'upwards, outwards':
e.g. jaiña 'to run' / ja^suña 'to run up; to set (of the sun)'
apaña 'to carry, take away' / ap^suña 'to take out'
16. k'ala 'completely'
naghana 'to scald, burn, be consumed by fire.'
17. warariña 'to cry, shout, bawl'
jalaña 'to run'
18. kota lake'
19. catjaña 'to catch'
20. kotalaca 'lakeshore'
tuyuña 'to swim, float (in air or water)'
21. arnakaña 'to shout; insult'
22. umc'wiiw passive participle of umaña 'to drink'
want'ana 'to dry up (something)'
pelanokaña 'to pluck' (cf. Spanish pelar).
23. lakhōña 'to lick'
24. puraca 'stomach'
phallana 'to explode'

LESSON XXXIX - Dialogue - Notes

25 sartirjam^ucji^uanti imperfect tense 'could not get up'; -jama- with elision of the preceding vowel with verb stems indicates 'opportunity, ability.' The infix -jja-, following the negative -c-, has the meaning of 'now, already,' implying that the action is about to be performed.

sicuya 'straw'

junt'aña 'to puncture'

ch'ap hi 'thorn'

26 mayaqui 'all of a sudden'

27 'It's not good to be stupid in this world.'

LESSON XL - Pusi runquir leccionesVocabulary - Arunaca

anchatí	mucho, demasiado; más bien	rather
arnt'asiña	olvidarse	to forget
chiji	desgracia	misfortune
inamaya	en vano	in vain
jan walt'ana	extrañar	to miss
juyphiña	estar frío	to be cold
kenaya	nube	cloud
kheparaña	quedar	to remain, stay
liamayuña	cosechar (papas, ocas); escarbar con instrumento	to reap (potatoes, oca); scrape with an instrument
pasaña	pasar	to endure
psi chuyuña	estar tonto	to be stupid
sapúru	cada día	each day, daily
thayña	estar frío	to be cold
walt'aña	acostumbrarse	to become accustomed to

Grammar - Suma parlañataqui

I. Optative: these forms are discussed and presented in grammar, lesson XXXIX. Cf. also discussion in lesson XXVIII.

Positive optative:

e.g. Kharúrojj nayajj marc saraqurista 'I hope to go to town tomorrow'
Jichhúrojj nayajj isinac t'ajisiquirista 'I hope to wash
clothes tomorrow'

Jutir marajj nayajj ut alasiquirista 'Next year I hope to
(be able) to buy a house'

Negative optative; the -c- infix of the positive optative is attached

e.g. Arumanthejj nayajj janic llaquisiristti 'Would that I
not be sad tomorrow'

Kharlrojj nayajj janic chawll caturistti 'I hope not to go
fishing tomorrow'

Arumanthejj yap luraquirista, janic jallojj purispati

'I hope to work the field tomorrow; I hope it doesn't rain'

Maranj ut utachaquirista. anchatí tatajjajj munanejj 'This
year I hope to build a house, if my father wants to'

(N.B. anchaquití + optative; anchatí + future!)

When the interrogative suffix -ti is added in positive questions,
the final vowel of the 1st person singular and plural ending is
elided:

e.g. Saraquiristti? 'do I hope to go?'

In negative questions, -ti is attached to jani- and the verb ending
remains intact.

e.g. janit saraquirista? 'don't I hope to go?'

- II. -cha: interrogative suffix which introduces the notion of doubt; it
may be translated as 'or' in some contexts. Cf. notes for the Dialogue,
Lesson XXXVIII.

Tomorrow I would leave
With the saddle of my skirt
And with the cinch of my belt.

Somebody has said to me,
Don't love that ungrateful,
That ungrateful boy, señorita,
Because he doesn't know how
to make you happy.

Ninito muerto

Aquí y allí lo recordaré
en el día y en la noche lo veré
el niño querido está acabado
dentro del suelo enterrado está.

En un campo desierto está durmiendo
en un pueblo lejano está guardado
el niño querido está acabado
dentro del suelo está enterrado.

Little Dead Boy

Here and there will I remember
him,
I see him during the day and
during the night.
The dear little boy is dead,
He is buried in the ground.

He is sleeping in a deserted
field,
He is concealed in a far town.
The dear little boy is dead,
He is buried in the ground.
